

OFFICIAL STATEMENT DATED JUNE 8, 2023

NEW

BOND ANTICIPATION NOTES

In the opinion of Barclay Damon LLP, Bond Counsel to the School District, under existing law and assuming compliance with certain covenants described herein and the accuracy and completeness of certain representations, certifications of fact and statements of reasonable expectations made by the School District, interest on the Notes is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code)". Bond Counsel is further of the opinion that interest on the Notes is not an item of tax preference for purposes of the alternative minimum tax imposed under the Code, however, for tax years beginning after December 31, 2022, interest on the Notes that is included in the "adjusted financial statement income" of certain corporations is not excluded from the corporate alternative minimum tax imposed under the Code. Bond Counsel is also of the opinion that, under existing law, interest on the Notes is exempt from personal income taxes imposed by the State of New York or any political subdivision thereof (including The City of New York). See "Tax Matters" herein regarding certain other tax considerations.

The Notes will be designated, or deemed designated, as "qualified tax-exempt obligations" pursuant to Section 265(b)(3) of the Code.

\$4,811,458 Bond Anticipation Notes – 2023

At an Interest Rate of 3.85%

Dated: June 21, 2023

Due: June 21, 2024

The Notes are general obligations of the West Canada Valley Central School District, Herkimer County, New York, all the taxable real property within which is subject to the levy of *ad valorem* taxes to pay the Notes and interest thereon, without limitation as to rate or amount. The faith and credit of the West Canada Valley Central School District are irrevocably pledged for the payment of the Notes and the interest thereon. See "Nature of the Obligation" and "TAX LEVY LIMITATION LAW" herein. The Notes will be issued without the option of prepayment, with interest payable at maturity.

The Notes will be issued in registered form payable to the purchaser.

The Notes are to be registered in the name of the purchaser, principal of and interest on the Notes will be payable in Federal Funds at the offices of the School District, or, at the option of the purchaser, such bank or trust company located and authorized to do business in the State of New York as may be selected by the successful bidder. Paying agent fees, if any, shall be the responsibility of the purchaser. In such case, one fully registered note certificate will be issued for each maturity of the Notes.

The Notes are offered when, as and if issued and received by the purchaser(s) and subject to the receipt of an unqualified legal opinion as to the validity of the Notes of Barclay Damon, LLP, Albany, New York. It is anticipated that the Notes will be available for delivery in Albany or Newport, New York on or about June 21, 2023.

OFFICIAL STATEMENT

of the

WEST CANADA VALLEY CENTRAL SCHOOL DISTRICT HERKIMER COUNTY, NEW YORK

Relating To
\$4,811,458 Bond Anticipation Notes, 2023

This Official Statement, which includes the cover page, has been prepared by the West Canada Valley Central School District, Herkimer County, New York (the “District” or “School District”, “County” and “State,” respectively) in connection with the sale by the School District of \$4,811,458 Bond Anticipation Notes, 2023 (the “Notes”).

The Notes are general obligations of the District and will contain a pledge of its faith and credit for the payment of the principal of and interest on the Notes as required by the Constitution and laws of the State (State Constitution, Art. VIII, Section 2; Local Finance Law, Section 100.00). All the taxable real property within the District is subject to the levy of ad valorem taxes to pay the Notes and interest thereon, without limitation as to the rate or amount.

The factors affecting the District's financial condition and the Notes are described throughout this Official Statement. Inasmuch as many of these factors, including economic and demographic factors, are complex and may influence the District tax base, revenues, and expenditures, this Official Statement should be read in its entirety, and no one factor should be considered more or less important than any other by reason of its relative position in this Official Statement.

All quotations from and summaries and explanations of provisions of the Constitution and Laws of the State and acts and proceedings of the District contained herein do not purport to be complete and are qualified in their entirety by reference to the official compilations thereof, and all references to the Notes and the proceedings of the District relating thereto are qualified in their entirety by reference to the definitive form of the Notes and such proceedings.

Description of the Notes

The Notes are general obligations of the District and will contain a pledge of its faith and credit for the payment of the principal of and interest on the Notes as required by the Constitution and laws of the State (State Constitution, Art. VIII, Section 2; Local Finance Law, Section 100.00). All the taxable real property within the School District is subject to the levy of ad valorem taxes to pay the Notes and interest thereon, without limitation as to rate or amount.

The Notes are dated June 21, 2023 and mature, without option of prior redemption, on June 21, 2024. Interest will be calculated on a 30-day month and 360-day year basis, payable at maturity.

The Notes will be issued in registered form payable to the purchaser; provided, however, if the Notes are eligible for issuance through the book-entry-only system for note issues through the Depository Trust Company (“DTC”) in New York, New York, the successful bidder may request with its bid that the Notes be issued in “book-entry-only” form, in which case the Notes will be registered and payable to “Cede & Co.” as nominee of DTC.

If the Notes will be issued through DTC, the Notes will be registered in the name of Cede & Co., as nominee of DTC in New York, New York, which will act as Securities Depository for the Notes. Payments of principal of and interest on the Notes will be made by the District to DTC, which will in turn remit such principal and interest to its Participants, for subsequent distribution to the Beneficial Owners of the Notes.

If the Notes are registered in the name of the purchaser, principal of and interest on the Notes will be payable in Federal Funds by the District at the District offices or, at the option of the purchaser, at a corporate trust office of a bank or trust company located and authorized to do business in the State of New York. The purchaser shall be responsible for the cost of such corporate trust office or bank.

Nature of the Obligation

Each Note when duly issued and paid for will constitute a contract between the District and the holder thereof.

Holders of any series of notes or bonds of the District may bring an action or commence a proceeding in accordance with the civil practice law and rules to enforce the rights of the holders of such series of notes.

The Notes will be general obligations of the District and will contain a pledge of the faith and credit of the District for the payment of the principal thereof and the interest thereon as required by the Constitution and laws of the State. For the payment of such principal and interest, the District has power and statutory authorization to levy ad valorem taxes on all real property within the District subject to such taxation by the District, without limitation as to rate or amount.

Although the State Legislature is restricted by Article VIII, Section 12 of the State Constitution from imposing limitations on the power to raise taxes to pay "interest on or principal of indebtedness theretofore contracted" prior to the effective date of any such legislation, the New York State Legislature may from time to time impose additional limitations or requirements on the ability to increase a real property tax levy or on the methodology, exclusions or other restrictions of various aspects of real property taxation (as well as on the ability to issue new indebtedness). On June 24, 2011, Chapter 97 of the Laws of 2011 was signed into law by the Governor (the "Tax Levy Limitation Law" or "Chapter 97"). The Tax Levy Limitation Law applies to local governments and school districts in the State (with certain exceptions) and imposes additional procedural requirements on the ability of municipalities and school districts to levy certain year-to-year increases in real property taxes.

Under the Constitution of the State, the District is required to pledge its faith and credit for the payment of the principal of and interest on the Notes and is required to raise real estate taxes, and without specification, other revenues, if such levy is necessary to repay such indebtedness. While the Tax Levy Limitation Law imposes a statutory limitation on the District's power to increase its annual tax levy, with the amount of such increase limited by the formulas set forth in the Tax Levy Limitation Law, it also provides the procedural method to surmount that limitation. See "TAX LEVY LIMITATION LAW" herein.

The Constitutionally-mandated general obligation pledge of municipalities and school districts in New York State has been interpreted by the Court of Appeals, the State's highest court, in Flushing National Bank v. Municipal Assistance Corporation for the City of New York, 40 N.Y.2d 731 (1976), as follows:

"A pledge of the city's faith and credit is both a commitment to pay and a commitment of the city's revenue generating powers to produce the funds to pay. Hence, an obligation containing a pledge of the City's "faith and credit" is secured by a promise both to pay and to use in good faith the city's general revenue powers to produce sufficient funds to pay the principal and interest of the obligation as it becomes due. That is why both words, "faith" and "credit" are used and they are not tautological. That is what the words say and this is what the courts have held they mean... So, too, although the Legislature is given the duty to restrict municipalities in order to prevent abuses in taxation, assessment, and in contracting of indebtedness, it may not constrict the City's power to levy taxes on real estate for the payment of interest on or principal of indebtedness previously contracted... While phrased in permissive language, these provisions, when read together with the requirement of the pledge and faith and credit, express a constitutional imperative: debt obligations must be paid, even if tax limits are to be exceeded".

In addition, the Court of Appeals in the Flushing National Bank (1976) case has held that the payment of debt service on outstanding general obligation bonds and notes takes precedence over fiscal emergencies and the police power of political subdivisions in New York State.

The pledge has generally been understood as a promise to levy property taxes without limitation as to rate or amount to the extent necessary to cover debt service due to language in Article VIII Section 10 of the Constitution, which provides an exclusion for debt 'service from Constitutional limitations on the amount of a real property tax levy, insuring the availability of the levy of property tax revenues to pay debt service. As the Flushing National Bank (1976) Court noted, the term "faith and credit" in its context is "not qualified in any way". Indeed, in Flushing National Bank v. Municipal Assistance Corp., 40 N.Y.2d 1088 (1977) the Court of Appeals described the pledge as a direct

constitutional mandate. In Quirk v. Municipal Assistance Corp., 41 N.Y.2d 644 (1977), the Court of Appeals stated that, while holders of general obligation debt did not have a right to particular revenues such as sales tax, "with respect to traditional real estate tax levies, the bondholders are constitutionally protected against an attempt by the State to deprive the city of those revenues to meet its obligations." According to the Court in Quirk, the State Constitution "requires the city to raise real estate taxes, and without specification other revenues, if such a levy be necessary to repay indebtedness."

In addition, the Constitution of the State requires that every county, city, town, village, and school district in the State provide annually by appropriation for the payment of all interest and principal on its serial bonds and certain other obligations, and that, if at any time the respective appropriating authorities shall fail to make such appropriation, a sufficient sum shall be set apart from the first revenues thereafter received and shall be applied to such purposes. In the event that an appropriating authority were to make an appropriation for debt service and then decline to expend it for that purpose, this provision would not apply. However, the Constitution of the State does also provide that the fiscal officer of any county, city, town, village, or school district may be required to set apart and apply such first revenues at the suit of any holder of any such obligations.

In Quirk v. Municipal Assistance Corp., the Court of Appeals described this as a "first lien" on revenues, but one that does not give holders a right to any particular revenues. It should thus be noted that the pledge of the faith and credit of a political subdivision in New York State is a pledge of an issuer of a general obligation bond or note to use its general revenue powers, including, but not limited to, its property tax levy to pay debt service on such obligations, but that such pledge may not be interpreted by a court of competent jurisdiction to include a constitutional or statutory lien upon any particular revenues.

While the courts in New York State have historically been protective of the rights of holders of general obligation debt of political subdivisions, it is not possible to predict what a future court might hold.

Purpose and Authorization

The Notes are authorized to be issued pursuant to the Constitution and laws of the State of New York, including among others, the Education Law, the Local Finance Law, and pursuant to a bond resolution dated December 13, 2021, authorizing the issuance of up to \$4,916,458 of serial bonds to renovate and improve various school district buildings and sites, acquire original furnishings, equipment, machinery or apparatus required for the purpose for which such buildings and sites are to be used, and pay incidental expenses related thereto.

This is the first issuance of indebtedness against said Resolution.

Book-Entry Only System

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Notes, if so requested. The Notes will be issued as fully-registered Notes registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC, only if requested by the purchaser prior to the initial issuance of Notes. One fully-registered note certificate will be issued for each of the notes bearing the same rate of interest and CUSIP number and will be deposited with DTC.

DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants

include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the Notes on DTC’s records. The ownership interest of each actual purchaser of each Note (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Notes, except in the event that use of the book-entry system for the Notes is discontinued.

To facilitate subsequent transfers, all Notes deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Notes; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Notes may wish to take certain steps to augment the transmission of them of notices of significant events with respect to the Notes, such as redemptions, tenders, defaults and proposed amendments to the Notes documents. For example, Beneficial Owners of Notes may wish to ascertain that the nominee holding the Notes for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption proceeds, distributions and dividend payments on the Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants’ accounts upon DTC’s receipt of funds and corresponding detailed information from the District, on payable date in accordance with their respective holdings shown on DTC’s records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such Participant and not of DTC or its nominee or the District, subject to any statutory or regulatory requirements as may be in effect from time to time.

Payment of redemption proceeds, distributions, and dividend payments Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Notes at any time by giving reasonable notice to the District. Under such circumstances, in the event that a successor depository is not obtained, note certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, note certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

THE DISTRICT CANNOT AND DOES NOT GIVE ANY ASSURANCES THAT DTC, DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC WILL DISTRIBUTE TO THE BENEFICIAL OWNERS OF THE NOTES (1) PAYMENTS OF PRINCIPAL OF OR INTEREST OR REDEMPTION PREMIUM ON THE NOTES; (2) CONFIRMATIONS OF THEIR OWNERSHIP INTERESTS IN THE NOTES; OR (3) OTHER NOTICES SENT TO DTC OR CEDE & CO., ITS PARTNERSHIP NOMINEE, AS THE REGISTERED OWNER OF THE NOTES, OR THAT THEY WILL DO SO ON A TIMELY BASIS, OR THAT DTC, DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS WILL SERVE AND ACT IN THE MANNER DESCRIBED IN THIS OFFICIAL STATEMENT.

THE DISTRICT WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATIONS TO DTC, THE DIRECT PARTICIPANTS, THE INDIRECT PARTICIPANTS OF DTC OR THE BENEFICIAL OWNERS WITH RESPECT TO (1) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC OR ANY DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC; (2) THE PAYMENT BY DTC OR ANY DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC OF ANY AMOUNT DUE TO ANY BENEFICIAL OWNER IN RESPECT OF THE PRINCIPAL AMOUNT OF OR INTEREST OR REDEMPTION PREMIUM ON THE NOTES; (3) THE DELIVERY BY DTC OR ANY DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC OF ANY NOTICE TO ANY BENEFICIAL OWNER; OR (4) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS THE REGISTERED HOLDER OF THE NOTES.

THE INFORMATION CONTAINED HEREIN CONCERNING DTC AND ITS BOOK-ENTRY SYSTEM HAS BEEN OBTAINED FROM DTC AND THE DISTRICT MAKES NO REPRESENTATION AS TO THE COMPLETENESS OR THE ACCURACY OF SUCH INFORMATION OR AS TO THE ABSENCE OF MATERIAL ADVERSE CHANGES IN SUCH INFORMATION SUBSEQUENT TO THE DATE HEREOF.

Certificated Notes

In the event the purchaser does not request the DTC book-entry-only system apply to the Notes on the date of initial issuance thereof, or in the event that book-entry only system is requested but subsequently discontinued by either DTC or the District, the following provisions will apply:

The Notes will be issued registered in the name of the purchaser in denominations of \$5,000 each or integral multiples thereof. Principal of and interest on the Notes will be payable at the offices of the School District or at the option of the noteholder, at a principal corporate trust office of a bank or trust company located and authorized to do business in the State of New York to be named as a fiscal agent by the District. Paying agent fees, if any, will be paid by the noteholder. The Notes will remain not subject to redemption prior to their stated final maturity date.

THE SCHOOL DISTRICT

General Information

The West Canada Valley School District is in the Towns of Fairfield, Herkimer, Manheim, Newport, Norway and Schuyler in Herkimer County and the Town of Deerfield in Oneida County. The District covers approximately 112 square miles. The School is located on an 88-acre campus approximately mid-way between the Villages of Middleville and Newport.

The School District is primarily a rural area, with some residents employed in agriculture. Other residents also commute to the Herkimer and Utica areas for employment. Opportunities for higher education are available nearby at the Herkimer County and Mohawk Valley Community Colleges, Utica College, and SUNY Institute of Technology.

The Villages of Middleville and Newport provide public water to their residents, while the remainder of the District is served by private wells. Telephone service is provided by the Newport Telephone Company and Verizon New York Inc. Electricity is provided by National Grid. The Newport Volunteer Fire Company provides fire protection for the School District's buildings, while various additional volunteer organizations serve the remainder of the District. Police protection is provided by the New York State Police.

Residents find commercial and financial services in the Villages of Middleville and Newport as well as in the Herkimer and Utica areas. Cultural and recreational opportunities are provided by the various colleges and the Adirondack

A network of roads and highways serve this area, including New York State Routes 28, 29 and 169, with access to the New York State Thruway at Little Falls, Utica, or Herkimer. Bus and rail transportation are also available in Utica. Air transportation is available in Syracuse or Albany.

District Population

The 2021 population of the School District is estimated to be 4,399. (Source: 2021 U.S. Census Bureau estimate)

Employee Pension Benefits

All non-teaching and non-certified administrative employees of the District eligible for pension or retirement benefits under the Retirement and Social Security Law of the State of New York are members of the New York and Local Employees' Retirement -System ("ERS"). Teachers and certified administrators are members of the New York State Teachers' Retirement System ("TRS"). Payments to TRS are deducted from the School District's State aid payments. Both the ERS and the TRS (together, the "Retirement Systems") are non-contributory with respect to members hired prior to July 27, 1976. Other than those in Tier V and Tier VI, all members hired on or after July 27, 1976 with less than 10 years of service must contribute 3% of their gross annual salary toward the cost of retirement programs.

On December 10, 2009, pension reform legislation was signed into law that created a new Tier V pension level. Key components of Tier V include:

- Raising the minimum age at which most civilians can retire without penalty from 55 to 62 and imposing a penalty of up to 38% for any civilian who retires prior to age 62.
- Requiring ERS employees to continue contributing 3% of their salaries toward pension costs so long as they accumulate additional pension credits.
- Increasing the minimum years of service required to draw a pension from 5 years to 10 years.

- Capping the amount of overtime that can be considered in the calculation of pension benefits for civilians at \$15,000 per year, and for police and firefighters at 15% of non-overtime wages.

Members of the TRS have a separate Tier V benefit structure that will achieve equivalent savings as other civilian public employees. It includes:

- Raising the minimum age an individual can retire without penalty from 55 to 57 years.
- Contributing 3.5% of their annual wages to pension costs rather than 3% and continuing this increased contribution so long as they accumulate additional pension credits.
- Increasing the 2% multiplier threshold for final pension calculations from 20 to 25 years.

In accordance with constitutional requirements, Tier V applies only to public employees hired after December 31, 2009 and before April 2, 2012.

On March 16, 2012, legislation was signed into law that created a new Tier VI pension program. The Tier VI plan only applies to those employees hired on or after April 1, 2012. The new pension tier has progressive contribution rates between 3% to 6% of salary; it increases the retirement age for new employees from 62 to 63 and includes provisions allowing early retirement with penalties. Under previous tiers, there was no limit to the number of public employers a public employee worked for from which retirement benefits could be calculated. Tier VI permits only two salaries to be included in the calculation. The pension multiplier for Tier VI is 1.75% for the first 20 years of service and 2% thereafter; Vesting will occur after 10 years of service. The final average salary is based on a five-year average instead of the previous Tiers' three-year average. Pension eligible overtime for civilian and non-uniformed employees will be capped at \$15,000, indexed for inflation. For uniformed employees outside of New York City, the cap is set at 15% of base pay. The number of sick and leave days that can be applied toward retirement service credit is reduced from 200 to 100. The legislation includes an optional defined contribution plan for new non-union employees with annual salaries of \$75,000 or more. The State is required to fund any pension enhancements on an ongoing basis. This is a potential future cost savings for local governments.

The District is required to contribute at an actuarially determined rate. The actual contribution for the last five years and the budgeted figures for the 2022-2023 and 2023-2024 fiscal years are as follows:

<u>Fiscal Year</u>	<u>ERS</u>	<u>TRS</u>
2017-2018	\$ 249,140	\$ 407,513
2018-2019	232,821	497,310
2019-2020	243,983	399,143
2020-2021	277,992	516,954
2021-2022	300,678	509,487
2022-2023 (Budgeted)	196,474	566,291
2023-2024 (Budgeted)	216,806	546,965

Retirement Incentive Program – Pursuant to various laws enacted between 1991 and 2002, the State Legislature authorized local governments to make available certain early retirement incentive programs to its employees. The District does not currently have early retirement incentive programs for its employees.

Historical Trends and Contribution Rates – Historically there has been a State mandate requiring full (100%) funding of the annual actuarially required local governmental contribution out of current budgetary appropriations. With the strong performance of the Retirement System in the 1990s, the locally required annual contribution declined to zero. However, with the subsequent decline in the equity markets, the pension system became underfunded. As a result, required contributions increased substantially to 15% to 20% of payroll for the employees’ and the police and fire retirement systems, respectively. Wide swings in the contribution rate resulted in budgetary planning problems for many participating local governments.

A chart of average ERS and TRS rates as a percent of payroll (2018-19 to 2023-24) is show below:

<u>Fiscal Year</u>	<u>ERS</u>	<u>TRS</u>
2018-2019	14.9%	10.62%
2019-2020	14.6	8.86
2020-2021	14.6	9.53
2021-2022	16.2	9.80
2022-2023	11.6	10.29
2023-2024	13.1	7.6*

*Estimated. Final contribution rate to be adopted at the July 26, 2023 TRS retirement board meeting.

In 2003, Chapter 49 of the Laws of 2003 amended the Retirement and Social Security Law and the Local Finance Law. The amendments empowered the State Comptroller to implement a comprehensive structural reform program for ERS. The reform program established a minimum contribution for any local governmental employer equal to 4.5% of pensionable salaries for bills which were due December 15, 2003, and for all fiscal years thereafter, as a minimum annual contribution where the actual rate would otherwise be 4.5% or less due to the investment performance of the fund. In addition, the reform program instituted a billing system to match the budget cycle of municipalities and school districts that will advise such employers over one year in advance concerning actual pension contribution rates for the next annual billing cycle. Under the previous method, the requisite ERS contributions for a fiscal year could not be determined until after the local budget adoption process was complete. Under the new system, a contribution for a given fiscal year is based on the valuation of the pension fund on the prior April 1 of the calendar year preceding the contribution due date instead of the following April 1 in the year of contribution so that the exact amount may now be included in a budget.

Chapter 57 of the Laws of 2010 (Part TT) amended the Retirement and Social Security Law to authorize participating employers, if they so elect, to amortize an eligible portion of their annual required contributions to ERS when employer contribution rates rise above certain levels. The option to amortize the eligible portion began with the annual contribution due February 1, 2011. The amortizable portion of an annual required contribution is based on a “graded” rate by the State Comptroller in accordance with formulas provided in Chapter 57. Amortized contributions are to be paid in equal annual installments over a ten-year period; but may be prepaid at any time. Interest is to be charged on the unpaid amortized portion at a rate to be determined by State Comptroller, which approximates a market rate of return on taxable fixed rate securities of a comparable duration issued by comparable issuers. The interest rate is established annually for that year’s amortized amount and then applies to the entire ten years of the amortization cycle of that amount. When in any fiscal year, the participating employer’s graded payment eliminates all balances owed on prior amortized amounts, any remaining graded payments are to be paid into an employer contribution reserve fund established by the State Comptroller for the employer, to the extent that amortizing employer has no currently unpaid prior amortized amounts, for future such use.

The District is not amortizing any pension payments, nor does it intend to do so in the foreseeable future.

Stable Rate Pension Contribution Option - The 2013-14 State Budget included a provision that provides local governments and school districts, including the District, with the option to “lock-in” long-term, stable rate pension contributions for a period of years determined by the State Comptroller and ERS and TRS. The stable rates would be 12% for ERS and 12.5% for TRS. The pension contribution rates under this program would reduce near-term payments for employers; but will require higher than normal contributions in later years.

The District did not participate in the Stable Rate Pension Contribution Option, nor does it intend to do so in the foreseeable future.

The State’s 2019-2020 Enacted Budget allowed school districts in the State to establish a reserve fund for the purpose of funding/offsetting the cost of TRS contributions. School districts may pay into such fund, during any particular fiscal year, an amount not to exceed two percent of the total compensation or salaries of all district employed teachers who are members of the TRS paid during the immediately preceding fiscal year; provided that the balance of such fund may not exceed ten percent of the total compensation or salaries of all district-employed teachers

who are members of the TRS paid during the immediately preceding fiscal year. The District has established a TRS Reserve.

The investment of monies, and assumptions underlying same, of the Retirement Systems covering the District's employees is not subject to the direction of the District. Thus, it is not possible to predict, control or prepare for future unfunded accrued actuarial liabilities of the Retirement Systems ("UAALs"). The UAAL is the difference between total actuarially accrued liabilities and actuarially calculated assets available for the payment of such benefits. The UAAL is based on assumptions as to retirement age, mortality, projected salary increases attributed to inflation, across-the-board raises and merit raises, increases in retirement benefits, cost-of-living adjustments, valuation of current assets, investment return and other matters. Such UAALs could be substantial in the future, requiring significantly increased contributions from the District which could affect other budgetary matters. Concerned investors should contact the Retirement Systems administrative staff for further information on the latest actuarial valuations of the Retirement Systems.

Other Post-Employment Benefits

The District provides post-retirement healthcare benefits to various categories of former employees. These costs may be expected to rise substantially in the future. School districts and Boards of Cooperative Educational Services, unlike other municipal units of government in the State, have been prohibited from reducing retiree health benefits or increasing health care contributions paid by retirees below the level of benefits or contributions afforded to or required from active employees since the implementation of Chapter 729 of the Laws of 1994. Legislative attempts to provide similar protection to retirees of other local units of government in the State have not succeeded as of this date. Nevertheless, many such retirees of all varieties of municipal units in the State do presently receive such benefits.

OPEB - refers to "other post-employment benefits," meaning other than pension benefits. OPEB consists primarily of health care benefits; and may include other benefits such as disability benefits and life insurance. Until now, these benefits have generally been administered on a pay-as-you-go basis and have not been reported as a liability on governmental financial statements.

GASB 75 - requires municipalities and school districts to account for OPEB liabilities much like they already account for pension liabilities, generally adopting the actuarial methodologies used for pensions, with adjustments for the different characteristics of OPEB and the fact that most municipalities and school districts have not set aside any funds against this liability. However, GASB 75 also addresses certain circumstances in which a non-employer entity provides financial support for OPEB of employees of another entity and requires: (a) explanations of how and why the OPEB liability changed from year to year (b) amortization and reporting of deferred inflows and outflows due to assumption changes, (c) use of a discount rate that takes into account resources of an OPEB plan and how they will be invested to maximize coverage of the liability (d) a single actual cost method and (e) immediate recognition of OPEB expense and effects of changes to benefit terms.

Under GASB 75, a total OPEB liability is determined for each municipality or school district. A net change in the total OPEB Liability is calculated as the sum of changes for the year including service cost, interest, difference between expected and actual experience, changes in benefit terms, changes in assumptions or other inputs, less the benefit payments made by the School District for the year.

Based on the most recent actuarial valuation dated July 1, 2020, and financial data as of June 30, 2022, the School District's beginning year total OPEB liability was \$53,608,992, the net change for the year was \$2,912,938 resulting in a total OPEB liability of \$56,521,215 for a fiscal year ending June 30, 2022. The aforementioned liability is recognized and disclosed in accordance with GASB 75 standards in the School District's June 30, 2022, financial statements.

The total OPEB liability is required to be determined through an actuarial valuation every two years, at a minimum. However, OPEB plans with fewer than 100 members may use an alternative measurement method in place

of an actuarial valuation. Additional information about GASB 75 and other accounting rules applicable to municipalities and school districts may be obtained from GASB.

There is no authority in current State law to establish a trust account or reserve fund for this liability. While State Comptroller Thomas P. DiNapoli proposed a bill in April of 2015 that would create an optional investment pool to help local governments fund their OPEB liabilities, such legislation has not advanced past the committee stage.

The School District's total OPEB liability is expected to increase. As is the case with most municipalities, this is being handled by the School District on a "pay-as-you-go" basis. Substantial future increases could have a material adverse impact upon the School District's finances and could force the School District to reduce services, raise taxes or both.

Unemployment Rate Statistics

Unemployment statistics are not available for the School District as such. The smallest area for which such statistics are available (which includes the School District) is Herkimer County. The data set forth below with respect to the County is included for information purposes only. It should not be inferred from the inclusion of such data in this Statement that the School District is necessarily representative of the County or vice versa.

Investment Policy

Pursuant to the statutes of the State of New York, the School District is permitted to invest only in the following investments: (1) special time deposit accounts in, certificates of deposit issued by or a deposit placement program (as provided by statute) with a bank or trust company located and authorized to do business in the State of New York; (2) obligations of the United States of America; (3) obligations guaranteed by agencies of the United States of America where the payment of principal and interest is guaranteed by the United States of America; (4) obligations of the State of New York; (5) obligations issued pursuant to Local Finance Law Sections 24.00 (tax anticipation notes) or 25.00 (revenue anticipation notes) with approval of the State Comptroller, by any municipality, school district or district corporation other than the School District; and (6) in the case of the School District moneys held in certain reserve funds established pursuant to law, obligations issued by the School District. These statutes further require that all bank deposits, in excess of the amount insured under the Federal Deposit Insurance Act, be secured by a pledge of eligible securities, an eligible letter of credit or an eligible surety bond, as each such term is defined in the law, or satisfy the statutory requirements of the deposit placement program.

Form of School Government

The legislative power of the School District is vested in the Board of Education (the "Board"). Each year an election is held within the School District to elect one or more members to the Board. The Board consists of seven members with overlapping three-year terms. Therefore, as nearly as practicable, an equal number of members is elected to the Board each year.

During the first 14 days in July of each year the Board meets for the purpose of reorganization. At that time, an election is held within the Board to elect a President and Vice President and to appoint other School District officials.

Pursuant to the Local Finance Law, the President of the Board is the chief fiscal officer of the School District. However, certain of the financial management functions of the School District are the responsibility of the Superintendent of Schools and Business Manager

Budgetary Procedures

Pursuant to the Education Law, the Board of Education of the School District annually prepares a budget for the ensuing fiscal year. A public hearing on such budget is held not less than seven and not more than fourteen days prior to the vote. The Board of Education causes notice of such public hearing to be published four times beginning seven weeks prior to the vote. After the public hearing, but not less than six days prior to the budget vote, the School District must mail a school budget notice to all qualified voters which contains the total budgeted amount, the dollar and percentage increase or decrease in the proposed budget (or contingency budget) as compared to the current budget, the percentage increase or decrease in the consumer price index, the estimated property tax levy, the basic STAR exemption impact and the date, time and place of the budget vote. After the budget hearing and subsequent notice, a referendum upon the question of the adoption of the budget is held on the third Tuesday in May each year. All qualified School District residents are eligible to participate.

Pursuant to Chapter 97 of the Laws of 2011 of the State of New York ("Chapter 97"), beginning with the 2012-13 fiscal year, if the proposed budget requires a tax levy increase that does not exceed the lesser of 2% (plus certain adjustments, if applicable) or the rate of inflation (the "Tax Cap"), then a majority vote is required for approval. If the proposed budget requires a tax levy increase that exceeds the Tax Cap, the budget proposition must include special language and a 60% vote is required for approval. Any separate proposition that would cause the School District to exceed the School District Tax Cap also must receive at least 60% voter approval.

If the proposed budget is not approved by the required margin, the Board of Education may resubmit the original budget or a revised budget to the voters on the third Tuesday in June, or adopt a contingency budget (which would provide for ordinary contingent expenses, including debt service) that levies a tax levy no greater than that of the prior fiscal year (i.e.: a 0% increase in the tax levy).

If the resubmitted and/or revised budget is not approved by the required margin, the Board of Education must adopt a budget that requires a tax levy no greater than that of the prior fiscal year (i.e.: a 0% increase in the tax levy). For a complete discussion of Chapter 97, see "Tax Levy Limitation Law" herein.

The budget for the 2022-23 fiscal year was adopted by the qualified voters by a vote of 178 yes to 31 no. The School District's 2022-23 Budget remained within the School District Tax Cap imposed by Chapter 97.

The budget for the 2023-24 fiscal year was adopted by the qualified voters by a vote of 181 yes to 41 no. The School District's 2023-24 Budget remained within the School District Tax Cap imposed by Chapter 97.

State Aid

The District receives appropriations from the State of State aid for operating, building and other purposes at various times throughout its fiscal year, pursuant to formulas and payment schedules set forth by statute. In its adopted budget for the 2023-24 fiscal year, approximately 69.05% of the revenues of the District are estimated to be received in the form of State aid. While the State has a constitutional duty to maintain and support a system of free common schools that provides a "sound basic education" to children of the State, there can be no assurance that the State appropriation for State aid to school districts will be continued in future years, either pursuant to existing formulas or in any form whatsoever

In addition to the amount of State Aid budgeted annually by the District, the State makes payments of STAR aid representing tax savings provided by school districts to their taxpayers under the STAR Program.

The State is not constitutionally obligated to maintain or continue State aid to the District. No assurance can be given that present State aid levels will be maintained in the future. State budgetary restrictions which could eliminate or substantially reduce State aid could have a material adverse effect upon the District, requiring either a counterbalancing increase in revenues from other sources to the extent available, or a curtailment of expenditures (See also "MARKET AND RISK FACTORS").

There can be no assurance that the State appropriation for building aid and other State aid to school districts will be continued in future years, either pursuant to existing formulas or in any form whatsoever. State aid, including building aid appropriated and apportioned to the School District, can be paid only if the State has such monies available therefor. The availability of such monies and the timeliness of such payment could be affected by a delay in the adoption of the State budget or their elimination therefrom.

There can be no assurance that the State's financial position will not change materially and adversely from current projections. If this were to occur, the State would be required to take additional gap-closing actions. Such actions may include but are not limited to reductions in State agency operations; delays or reductions in payments to local governments or other recipients of State aid including school districts in the State. Reductions in the payment of State aid could adversely affect the financial condition of school districts in the State.

The amount of State aid to school districts can vary from year to year and is dependent in part upon the financial condition of the State. During the 2011 to 2019 fiscal years of the State, State aid to school districts was paid in a timely manner; however, during the State's 2010 and 2020 fiscal years, State budgetary restrictions resulted in delayed payments of State aid to school districts in the State. In addition, the availability of State aid and the timeliness of payment of State aid to school districts could be affected by a delay in adoption of the State budget, which is due at the start of the State's fiscal year of April 1. The State's budget has been adopted by April 1 or shortly thereafter for over ten (10) years. The State's 2021-22 Enacted Budget was adopted on April 7, 2021 and the State's 2023-24 Enacted Budget was adopted on May 3, 2023. No assurance can be given that the State will not experience delays in the adoption of the budget in future fiscal years. Significant delays in the adoption of the State budget could result in delayed payment of State aid to school districts in the State which could adversely affect the financial condition of school districts in the State.

Should the District fail to receive State aid expected from the State in the amounts and at the times expected, occasioned by a delay in the payment of such monies or by a mid-year reduction in State aid, the District is authorized by the Local Finance Law to provide operating funds by borrowing in anticipation of the receipt of uncollected State aid.

Federal Aid Received by the State –

The State receives a substantial amount of federal aid for health care, education, transportation and other governmental purposes, as well as federal funding to respond to, and recover from, severe weather events and other disasters. Many of the policies that drive this federal aid may be subject to change under the federal administration and Congress. Current federal aid projections, and the assumptions on which they rely, are subject to revision in the future as a result of changes in federal policy, the general condition of the global and national economies and other circumstances.

Since March 2020, the State has been awarded over \$14 billion in Federal education COVID response funding through the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act; Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (“CRRSA”); and the American Rescue Plan (“ARP”) Act. These funds are supporting the ability of local educational agencies to address the impact that COVID-19 has had, and continues to have, on elementary and secondary schools in the State. The District has been allocated a total of approximately \$2,139,311 in ARP funds and \$627,058 in CRRSA funds. As of June 30, 2022, the District has received \$307,376 in ARP funds and \$125,411 in CRRSA funds.

Reductions in Federal funding levels could have a materially adverse impact on the State budget. In addition to the potential fiscal impact of policies that may be proposed and adopted by the new administration and Congress, the State budget may be adversely affected by other actions taken by the Federal government, including audits, disallowances, and changes to Federal participation rates or other Medicaid rules.

State Aid History - State aid to school districts within the State has declined in some recent years before increasing again in more recent years.

The State 2018-2019 Enacted Budget included nearly \$1 billion in additional education funding, representing a 3.9% increase over 2017-2018. Approximately \$859 million of that increase was comprised of traditional public-school aid, including increased Foundation Aid and full-funding of expense-based aids. Formula-based school aid stood at \$26.03 billion statewide, a 3.4% increase over the prior year. The State's 2018-19 Enacted Budget included an increase of \$618 million in Foundation Aid for school districts. Foundation Aid totaled nearly \$17.8 billion statewide. For the seventh consecutive year, the Foundation Aid increase was distributed using a one year, off formula methodology. The State's 2018-2019 Enacted Budget guaranteed that all school districts receive an increase in Foundation Aid over their 2017-2018 levels. \$50 million of the Foundation Aid increase was "set aside" for certain school districts to fund community schools. The State's 2018-2019 Enacted Budget fully funded all expense-based aid for 2018-2019, including building, transportation, BOCES and special education aid. These categories served as State reimbursements for school district expenses made in the prior year, based on school district-specific aid ratios. A total of \$240 million was approved for increases in all expense-based aids in 2018-2019

The State 2019-2020 Enacted Budget included a total of \$27.69 billion for School Aid, a year-to-year funding increase of \$956 million or 3.6 percent and provided additional funding for Foundation Aid of \$338.0 million and \$409.65 million in reimbursements for expense-based aids. In addition, the 2019-2020 Enacted Budget increased the Community Schools set aside funding amount by \$49.99 million to a total of \$250.0 million. This increased funding is targeted to districts with failing schools and/or districts experiencing significant growth in English language learners. The 2019-2020 Enacted Budget increased the minimum community schools funding amount from \$75,000 to \$100,000. This ensures all high-need districts across the State can apply the funds to a wide-range of activities.

The State's 2020- 2021 Enacted Budget - Due to the anticipated impact of the COVID-19 pandemic on State revenues, State aid in the State's 2020-2021 Enacted Budget was 3.7% lower than in the State's 2019-2020 Enacted Budget but was offset in part with increased Federal support. This reduction in State Operating Funds support was offset by approximately \$1.1 billion in funding provided to the State through the Federal CARES Act, including the

Elementary and Secondary School Emergency Education Relief Fund and the Governor's Emergency Education Relief Fund. With these Federal funds, State aid in the school district fiscal year 2020-2021 was approximately \$27.9 billion, an annual increase of approximately \$100 million or 0.4%. The State's 2020-2021 Enacted Budget continued prior year funding levels for existing programs, including Foundation Aid, Community Schools and Universal Prekindergarten. The 2020-2021 Enacted Budget also provided over \$200 million in support for competitive grant programs, including \$1 million for development of a new Civics Education curriculum and \$10 million for a Student Mental Health program. Funding for expense-based aids, such as Building Aid, Transportation Aid, and Boards of Cooperative Educational Services (BOCES) Aid continued under existing aid formulas. Out-year growth in School Aid reflected then current projections of the ten-year average growth in State personal income. The State's 2020-2021 Enacted Budget authorized the State's Budget Director to make periodic adjustments to State Aid, in the event that actual State revenues come in below 99% of estimates or if actual disbursements exceed 101% of estimates. Pursuant to that provision, in October, 2020, the State announced that, in the absence of Federal funding to offset such lost revenue, the State had begun to take steps to reduce spending, including but not limited to, temporarily holding back 20% of most aid payments to local governments and school districts. However, the 2020-2021 State aid declines were offset, in part, by \$1.1 billion of increased federal funding through the Coronavirus Aid, Relief, and Economic Security Act. With these federal funds, State aid totaled \$27.9 billion in the State's 2020-2021 Enacted Budget, an annual increase of approximately \$100 million or 0.4% from the 2019-2020 Enacted Budget. As of February 1, 2021, the State Education Department ("SED") advised school districts that the State Division of the Budget would, at some point, provide approval for SED to make the payments to school districts for State aid and other Pre-K-12 grant programs that had been subject to the above-referenced 20% withholding. Such approval was received and the State released all of the withheld funds prior to June 30, 2021

The State 2021-22 Enacted Budget included \$29.5 billion in state aid to school districts, and significantly increased funding for schools and local governments, including a \$1.4 billion increase in Foundation Aid and a three-year phase in of the full restoration to school districts of Foundation Aid that was initially promised in 2007. Additionally, the budget includes the use of \$13 billion of federal funds for emergency relief, along with the Governor's Emergency Education Relief, which includes, in part, the allocation of \$629 million to school districts as targeted grants in an effort to address learning loss as a result of the loss of enrichment and after-school activities. In addition, \$105 million of federal funds are to be allocated to expand full-day kindergarten programs. Under the budget, school districts are to be reimbursed for the cost of delivering school meals and instructional materials in connection with COVID-19-related school closures in spring 2020, along with the costs of keeping transportation employees and contractors on stand-by during the short-term school closures prior to the announcement of the closure of schools for the remainder of the 2019-20 year. Under the budget, local governments are to receive a full restoration of proposed cuts to Aid and Incentives for Municipalities (AIM) funding, and will receive a full restoration of \$10.3 million in proposed Video Lottery Terminal (VLT) aid cuts where applicable.

The State 2022-23 Enacted Budget provided \$31.5 billion in State funding to school districts for the 2022-23 school year, the highest level of State aid ever. This represented an increase of \$2.1 billion or 7.2 percent compared to the 2021-22 school year, and included a \$1.5 billion or 7.7 percent Foundation Aid increase. The State 2022-23 Enacted Budget also programmed \$14 billion of federal Elementary and Secondary School Emergency Relief and Governor's Emergency Education Relief funds to public schools. This funding, available for use over multiple years, is designed to assist public schools to reopen for in-person instruction, address learning loss, and respond to students' academic, social, and emotional needs due to the disruptions of the COVID-19 pandemic. The State's 2022-23 Enacted Budget allocated \$100 million over two years for a new State matching fund for school districts with the highest needs to support efforts to address student well-being and learning loss. In addition, the State 2022-23 Enacted Budget increased federal funds by \$125 million to expand access to full-day prekindergarten programs for four-year-old children in school districts statewide in the 2022-23 school year.

The State's 2023-2024 Enacted Budget was enacted on May 3, 2023 and provides for a total of \$34 billion in State funding to school districts for the 2023-24 school year. The State's 2023-2024 Enacted Budget represents a \$3.2 billion or 10.4% increase in State funding for education, and includes a \$2.629, or 12.3% percent Foundation Aid increase.

State Aid Litigation - In January 2001, the State Supreme Court issued a decision in Campaign for Fiscal Equity v. New York mandating that the system of apportionment of State aid to school districts within the State be restructured by the Governor and the State Legislature. On June 25, 2002, the Appellate Division of the State Supreme Court reversed that decision. On June 26, 2003, the State Court of Appeals, the highest court in the State, reversed the Appellate Division, holding that the State must, by July 30, 2004, ascertain the actual cost of providing a sound basic education, enact reforms to the system of school funding and ensure a system of accountability for such reforms. The Court of Appeals further modified the decision of the Appellate Division by deciding against a Statewide remedy and instead limited its ruling solely to the New York City school system.

After further litigation, on appeal in 2006, the Court of Appeals held that \$1.93 billion of additional funds for the New York City schools — as initially proposed by the Governor and presented to the Legislature as an amount sufficient to provide a sound basic education — was reasonably determined. State legislative reforms in the wake of The Campaign for Fiscal Equity decision included increased accountability for expenditure of State funds and collapsing over 30 categories of school aid for school districts in the State into one classroom operating formula referred to as foundation aid. The stated purpose of foundation aid is to prioritize funding distribution based upon student need. As a result of the Court of Appeals ruling schools were to receive \$5.5 billion increase in foundation aid over a four fiscal year phase-in covering 2007 to 2011.

A case related to the Campaign for Fiscal Equity, Inc. v. State of New York was heard on appeal on May 30, 2017 in New Yorkers for Students' Educational Rights v. State of New York ("NYSER") and a consolidated case on the right to a sound basic education. The NYSER lawsuit asserts that the State has failed to comply with the original decision in the Court of Appeals in the Campaign for Fiscal Equity case, and asks the Court of Appeals to require the State to develop new methodologies, formulas and mechanisms for determining State aid, to fully fund the foundation aid formula, to eliminate the supermajority requirement for voter approval of budgets which increase school district property tax levies above the property tax cap limitation, and related matters. On June 27, 2017, the Court of Appeals held that the plaintiffs' causes of action were properly dismissed by the earlier Appellate Division decision except insofar as two causes of action regarding accountability mechanisms and sufficient State funding for a "sound basic education" as applicable solely to the school districts in New York City and Syracuse. The Court emphasized its previous ruling in the Campaign for Fiscal Equity case that absent "gross education inadequacies", claims regarding State funding for a "sound basic education" must be made on a district-by-district basis based on the specific facts therein. On October 14, 2021, Governor Hochul announced that New York State has reached an agreement to settle and discontinue the New Yorkers for Students' Educational Rights v. New York State case, following through on the State's commitment to fully fund the current Foundation Aid formula to New York's school districts over three years

and ending the State's prior opposition to providing such funding. The litigation, which has been ongoing since 2014, sought to require New York State to fully fund the Foundation Aid formula that was put into place following the Campaign for Fiscal Equity cases, and has been previously opposed by the State. Foundation Aid was created in 2007 and takes school district wealth and student need into account to create an equitable distribution of state funding to schools, however, New York State has never fully funded Foundation Aid. The new settlement requires New York to phase-in full funding of Foundation Aid by the FY 2024 budget. In the 2022 Enacted State Budget approved in April 2022, the Executive and Legislature agreed to fully fund the Foundation Aid by FY 2024 budget and enacted this commitment into law. A breakdown of the currently anticipated Foundation Aid funding is available below:

- FY 2022: \$19.8 billion, covering 30% of existing shortfall
- FY 2023: Approximately \$21.3 billion, cover 50% of the anticipated shortfall
- FY 2024: Approximately \$23.2 billion, eliminating the anticipated shortfall, and funding the full amount of Foundation Aid for all school Districts

Fiscal Stress Monitoring

The New York State Comptroller has developed a Fiscal Stress Monitoring System ("FSMS") to provide independent information to School District officials, taxpayers and policy makers regarding the various levels of fiscal stress under which the State's diverse school districts are operating.

The fiscal stress scores are based on financial information submitted as part of each School District's ST-3 report filed yearly with the State Education Department. Using financial indicators that include year-end fund balance, cash position and patterns of operating deficits, the OSC system creates an overall fiscal stress score which classifies whether a district is in "significant fiscal stress", in "moderate fiscal stress", as "susceptible to fiscal stress" or "no designation". Entities that do not accumulate the number of points that would place them in a stress category will receive a financial score but will be classified in a category of "no designation". This classification should not be interpreted to imply that the entity is completely free of fiscal stress conditions. Rather, the entity's financial information, when objectively scored according to the FSMS criteria, did not generate sufficient points to place them in one of the three established stress categories.

The reports of State Comptroller for the past five fiscal years if the District are as follows:

<u>Fiscal Year Ending In</u>	<u>Stress Designation</u>	<u>Fiscal Score</u>
2022	No Designation	0.0
2021	No Designation	0.0
2020	No Designation	0.0
2019	No Designation	0.0
2018	No Designation	0.0

State Comptroller Report of Examination

The State Comptroller's office, i.e., the Department of Audit and Control, periodically performs a compliance review to ascertain whether the District has complied with the requirements of various State and Federal statutes. These audits can be found by visiting the Audits of Local Governments section of the Office of the State Comptroller website.

The State Comptroller's office released an audit report of the West Canada Valley Central School District on June 11, 2021. The purpose of this audit was to determine whether West Canada Valley Central School District officials implemented adequate internal controls to ensure that non-payroll disbursements were authorized and proper.

Key Findings

District officials did not implement adequate internal controls to ensure that non-payroll disbursements were authorized and proper.

- The Business Manager/Treasurer (Treasurer) did not control when her electronic signature was used by another employee to sign checks.
- The claims auditor did not approve medical, vision, and dental insurance claims totaling \$3.9 million.
- The Board did not develop an online banking policy or procedures to verify that transactions are proper.

Key Recommendations

- The Treasurer should control when her electronic signature is applied to checks.
- The Board should ensure that all insurance claims are presented to the claims auditor for audit and approval prior to payment.
- The Board should develop an online banking policy.

A copy of the complete report and the District's response can be found by visiting the Audits of Local Governments section of the Office of the State Comptroller website:

Other Information

The statutory authority for the power to spend money for the object or purpose, or to accomplish the object or purpose, for which the Notes are issued is the Education Law and the Local Finance Law.

No principal or interest upon any obligation of the School District is past due.

The fiscal year of the School District is from July 1 to June 30.

Other than "Estimated Calculation of Overlapping Indebtedness", this Official Statement does not include the financial data of any other political subdivisions of the State having power to levy taxes within the School District.

Financial Statements

The School District retains an independent Certified Public Accountant, whose most recent report covers the period ended June 30, 2022 and may be found attached hereto as Appendix B.

The District complies with the Uniform System of Accounts as prescribed for school districts in New York State. This system differs from generally accepted accounting principles as prescribed by the American Institute of Certified Public Accountants' Industry Audit Guide, "Audits of State and Local Governmental Units", and codified in Government Accounting, Auditing and Financial Reporting ("GAAFR"), published by the National Committee on Government Accounting.

Tax Collection Procedure

School taxes are due September 1. If paid by September 30, no penalty is imposed. There is a 2% penalty if paid by the end of October. On November 15, a list of all unpaid taxes is given to the Counties to be re-levied on County/Town tax rolls. The School District is reimbursed by the Counties for all unpaid taxes the first week of April in each year and is thus assured of 100% collection of its annual levy.

General Fund Operations

District finances are operated primarily through its General Fund. All taxes and most other revenues are paid into this fund and all current operating expenditures are made from it. (A statement of such revenues and expenditures for the five-year period ending June 30, 2022 is contained in the Appendices). As reflected in the Appendices, the District derives the bulk of its annual revenues from a tax on real property and from State aid. Capital improvements are generally financed by the issuance of bonds and bond anticipation notes.

STAR – School Tax Exemption

The STAR (School Tax Relief) program provides State-funded exemptions from school property taxes to homeowners for their primary residences. School districts are reimbursed by the State for real property taxes exempted pursuant to the STAR Program.

Homeowners over 65 years of age with household adjusted gross incomes, less the taxable amount of total distributions from individual retirement accounts and individual retirement annuities (“STAR Adjusted Gross Income”) of \$93,200 or less in 2023-24, increased annually according to a cost of living adjustment, are eligible for a “full value” exemption of the first \$81,400 for the 2023-24 school year (adjusted annually). Other homeowners with household STAR Adjusted Gross income not in excess of \$250,000 (\$500,000 in the case of a STAR credit, as discussed below) are eligible for a \$30,000 “full value” exemption on their primary residence.

Part A of Chapter 60 of the Laws of 2016 of the State of New York (“Chapter 60”) gradually converts the STAR program from a real property tax exemption to a personal income tax credit. Chapter 60 prohibits new STAR exemptions from being granted unless at least one of the applicants held title to the property on the taxable status date of the assessment roll that was used to levy school district taxes for the 2015-2016 school year (generally, March 1, 2015), and the property was granted a STAR exemption on that assessment roll. A new homeowner may receive a new personal income tax credit in the form of a check. A taxpayer who is eligible for the new credit will receive a check from the State equal to the amount by which the STAR exemption would have reduced his or her school tax bill. A homeowner who owned his or her home on the taxable status date for the assessment roll used to levy taxes for the 2015-2016 school year, and who received a STAR exemption on that roll, may continue to receive a STAR exemption on that home as long as he or she still owns and primarily resides in it. No further action is required (unless the homeowner has been receiving Basic STAR and wants to apply for Enhanced STAR, which is permissible).

The 2019-20 Enacted State Budget made several changes to the STAR program, which went into effect immediately. The changes are intended to encourage homeowners to switch from the STAR exemption to the STAR credit. The income limit for the exemption has been lowered to \$250,000, compared with a \$500,000 limit for the credit. The amount received for the STAR exemption will remain the same each year, while the amount of the STAR credit can increase up to two percent annually. Homeowners with STAR Adjusted Gross Income of \$250,000 or less have the option to select the credit or the exemption.

The State’s 2020-21 Enacted State Budget further modified the STAR program. Under such legislation, property owners with property tax delinquencies greater than one year are not eligible for the Basic STAR exemption or the Basic STAR credit. Recipients of the Enhanced STAR exemptions and credits are not impacted by this program; they may continue to receive STAR benefits even if their property taxes are delinquent. While Governor Cuomo had issued various Executive Orders in response to the COVID-19 pandemic that temporarily precluded the State Tax Department from disallowing STAR exemptions or credits the most recent of such Executive Orders expired on July 5, 2021.

The 2022-23 Enacted State Budget provided \$2.2 billion in State funding for a new one-year property tax relief credit, the Homeowner Tax Rebate Credit, for eligible low- and middle-income households, as well as eligible senior households. Under this program, basic STAR exemption and credit beneficiaries with incomes below \$250,000 and Enhanced STAR recipients are eligible for the property tax rebate where the benefit is a percentage of the homeowners’ existing STAR benefit.

TAX LEVY LIMITATION LAW

On June 24, 2011, Chapter 97 of the Laws of 2011 was signed into law by the Governor. The Tax Levy Limit Law modifies current law by imposing a limit on the amount of real property taxes that a school district may levy. The Law affected school district tax levies for the school district fiscal year beginning July 1, 2012.

Prior to the enactment of the Law, there was no statutory limitation on the amount of real property taxes that a school district could levy if its budget had been approved by a simple majority of its voters. In the event the budget had been defeated by the voters, the school district was required to adopt a contingency budget. Under a contingency budget, school budget increases were limited to the lesser of four percent (4%) of the prior year's budget or one hundred twenty percent (120%) of the consumer price index ("CPI").

The Tax Levy Limit Law requires that a school district hereafter submit its proposed tax levy (not its proposed budget) to the voters each year and imposes a limitation on the amount of tax levy growth from one fiscal year to the next. Such limitation is the lesser of (i) 2% or (ii) the annual percentage increase in the CPI, as described in the Law. Tax levies that do not exceed such limit will require approval by at least 50% of the voters. Approval by at least 60% of the voters will be required for a tax levy in excess of the limit. In the event the voters reject the tax levy, the school district's tax levy for the ensuing fiscal year may not exceed the amount of the tax levy for the prior fiscal year, without any stated exceptions.

There are exceptions for school districts to the tax levy limitation provided in the law, including expenditures made on account of certain tort settlements and certain increases in the average actuarial contribution rates of the New York State and Local Employees' Retirement System and the Teachers' Retirement System. School districts are also permitted to carry forward a certain portion of their unused levy limitation from a prior year.

There is also an exception for school districts for "Capital Local Expenditures" subject to voter approval where required by law. This term is defined in a manner that does not include certain items for which a school district may issue debt, including the payment of judgments or settled claims, including tax certiorari payments, and cashflow borrowings, including tax anticipation notes, revenue anticipation notes, budget notes and deficiency notes. "Capital Local Expenditures", are defined as "the taxes associated with budgeted expenditures resulting from the financing, refinancing, acquisition, design, construction, reconstruction, rehabilitation, improvement, furnishing and equipping of or otherwise providing for school district capital facilities or school district capital equipment, including debt service and lease expenditures, and transportation capital debt service, subject to the approval of the qualified voters where required by law". The portion of the tax levy necessary to support "Capital Local Expenditures" is defined as the "Capital Tax Levy".

On February 20, 2013, the New York State United Teachers ("NYSUT") and several individuals filed a lawsuit in State Supreme Court seeking a declaratory judgment and a preliminary injunction that the Tax Levy Limitation Law is unconstitutional as it applies to public school districts. On September 23, 2014, a Justice of the State Supreme Court dismissed each of NYSUT's causes of action but granted NYSUT's motion to amend the complaint. After the ruling, NYSUT amended its complaint to include a challenge to the Real Property Tax Rebate, also on Federal and State constitutional grounds. On March 16, 2015, all causes of action contained in the amended complaint were dismissed. On May 5, 2016, the dismissal was upheld by the New York Supreme Court, Appellate Division, Third Judicial Department to dismiss the complaint. An additional appeal by NYSUT was dismissed on October 20, 2016 by the Court of Appeals, New York's highest court, on the grounds that no substantial constitutional question was directly involved, and thereafter, leave to appeal was denied on January 14, 2017 by the Court of Appeals.

STATUS OF INDEBTEDNESS

Constitutional Requirements

The New York State Constitution limits the power of the District (and other municipalities and certain school districts of the State) to issue obligations and to contract indebtedness. Such constitutional limitations in summary form and as generally applicable to the District include the following:

Purpose and Pledge. The District shall not give or loan any money or property to or in aid of any individual or private undertaking or give or loan its credit to or in aid of any of the foregoing or any public corporation.

The District may contract indebtedness only for a District purpose and shall pledge its faith and credit for the payment of principal of and interest thereon.

Payment and Maturity. Except for certain short-term indebtedness contracted in anticipation of taxes or to be paid within three fiscal year periods, indebtedness shall be paid in annual installments commencing no later than two years after the date such indebtedness shall have been contracted and ending no later than the expiration of the period of probable usefulness of the object or purpose as determined by statute; unless substantially level or declining annual debt service is utilized, no installment may be more than fifty percent in excess of the smallest prior installment. The District is required to provide an annual appropriation for the payment of interest due during the year on its indebtedness and for the amounts required in such year for amortization and redemption of its serial bonds and such required annual installments on its notes.

Debt Limit the District has the power to contract indebtedness for any school district purpose so long as the principal amount thereof shall not exceed ten per centum of the full valuation of the taxable real estate of the District and subject to certain enumerated deductions. The constitutional method for determining full valuation by taking the assessed valuation of taxable real estate for the last completed assessment roll and applying thereto the ratio which such assessed valuation bears to the full valuation as determined by the State Office of Real Property Services. The State Legislature is required to prescribe the manner by which such ratio shall be determined.

Statutory Procedure

In general, the State Legislature has, by the enactment of the Local Finance Law, authorized the powers and procedure for the District to borrow and incur indebtedness subject, of course, to the constitutional provisions set forth above. The power to spend money, however, generally derives from other laws, including the Education Law.

The District is generally required by such laws to submit propositions for the expenditure of money for capital purposes to the qualified electors of the District. Upon approval thereby, the Board of Education may adopt a bond resolution authorizing the issuance of bonds, and notes in anticipation of the bonds. With respect to certain school building construction projects, the District is not permitted to spend in excess of \$100,000 for construction costs until the plans and specifications for such project have been approved by the Commissioner of Education of the State. The District has obtained such approval with respect to the project to be financed by the Notes.

Each bond resolution usually authorizes the construction, acquisition or installation of the object or purpose to be financed, sets forth the plan of financing and specifies the maximum maturity of the bonds subject to the legal (Constitution, Local Finance Law and case law) restrictions relating to the period of probable usefulness with respect thereto.

The Local Finance Law also provides that where a bond resolution is published with a statutory form of notice, the validity of the bonds authorized thereby, including bond anticipation notes issued in anticipation of the sale thereof, may be contested only if:

- (1) Such obligations are authorized for a purpose for which the District is not authorized to expend money, or

(2) There has not been substantial compliance with the provisions of law which should have been complied within the authorization of such obligations

and an action contesting such validity, is commenced within twenty days after the date of such publication or,

(3) Such obligations are authorized in violation of the provisions of the Constitution.

The Board of Education, as the finance board of the District, has the power to enact bond resolutions. In addition, such finance board has the power to authorize the sale and issuance of obligations. However, such finance board may delegate the power to sell the obligations to the President of the Board of Education, the chief fiscal officer of the District, pursuant to the Local Finance Law.

The District is further subject to constitutional limitation by the general constitutionally imposed duty on the State Legislature to restrict the power of taxation and contracting indebtedness; however, the State Legislature is prohibited by a specific constitutional provision from restricting the power of the District to levy taxes on real estate for the payment of interest on or principal of indebtedness theretofore contracted.

Statutory law in the State permits bond anticipation notes to be renewed each year provided annual principal installments are made in reduction of the total amount of such notes outstanding, commencing no later than 2 years from the date of the first issuance of such notes and provided that such renewal issues do not exceed 5 years beyond the original date of borrowing.

In general, the Local Finance Law contains provisions providing the District with power to issue certain other short-term general obligation indebtedness including revenue, tax anticipation, budget and capital notes.

Status of Short-Term Indebtedness

The School District has no outstanding short-term indebtedness as of the date of this Official Statement

Cash Flow Borrowings

The School District issued a \$600,000 Revenue Anticipation Notes for operational purposes in the 2015-16 fiscal year. The RAN was paid in full on June 16, 2017. The School District does not expect to issue such notes in the current fiscal year.

Capital Project Plans

The District voters approved a \$4,916,458 capital project on November 9, 2021. The project consists of improvements to security and safety, and repairs and improvements to critical infrastructure. Areas of focus will be the auditorium, gymnasium, pool, domestic water system, PA/Phone system, and mechanical upgrades and air quality improvements. Construction began in the Spring of 2023 and is estimated to be completed by Fall of 2023. This will be the first issuance of debt to finance the project and will provide \$4,811,458 in new money.

The District voters approved a \$4,000,000 capital project on May 16, 2023. The project will consist of athletic field improvements including such items as a multipurpose synthetic turf field, sports field lighting, elevated bleachers, stormwater improvements and minor building work. The District received a donation of \$500,000 towards the cost of the project. The first issuance of debt to finance the project is anticipated in June 2024.

School Bus Borrowings

The District typically issues 5-year bonds annually in September to finance the purchase of buses.

Building Aid Estimate

Pursuant to the provisions of Chapter 760 of the Laws of 1963, the District is eligible to receive a Building Aid Estimate from the New York State Department of Education. The District has not applied for such estimate; but anticipates that aid may be received on its outstanding indebtedness at their Building Aid Ratio of 90.8%.

The State building aid ratio is calculated each year based upon a formula which reflects Resident Weighted Average Daily Attendance (RWADA) and the full value per pupil compared with the State average. Consequently, the estimated aid will vary over the life of each issue. State building aid is further dependent upon the continued apportionment of funds by the State Legislature.

A fundamental reform of building aid was enacted as Chapter 383 of the Laws of 2001. The provisions legislated, among other things, a new "assumed amortization" payout schedule for future State building aid payments based on an annual "average interest rate" and mandatory periods of probable usefulness with respect to the allocation of building aid. The School District has no reason to believe that it will not ultimately receive all of the building aid it anticipates; however, no assurance can be given as to when and how much building aid the School District will receive in relation to its outstanding debt. See "State Aid" herein.

Since the gross indebtedness of the District is within its constitutional debt limit, the District is not required to apply for a Building Aid Estimate from the State Department of Education. The District anticipates the receipt of building aid

(b) The District's full valuation of taxable real estate for 2022-23 is \$362,159,003

Note: The above ratios do not take into account State building aid the District will receive for past and current construction building projects.

SPECIAL PROVISIONS AFFECTING REMEDIES UPON DEFAULT

In the event of a default in the payment of the principal of and/or interest on the Notes, the State Comptroller is required to withhold, under certain conditions prescribed by Section 99-b of the State Finance Law, state aid and assistance to the School District and to apply the amount thereof so withheld to the payment of such defaulted principal and/or interest, which requirement constitutes a covenant by the State with the holders from time to time of the Notes. The covenant between the State of New York and the purchasers and the holders and owners from time to time of the notes and bonds issued by the school districts in the State for the school purposes provides that it will not repeal, revoke or rescind the provisions of Section 99-b, or amend or modify the same so as to limit, impair or impede the rights and remedies granted thereby.

Said section provides that in the event a holder or owner of any bond issued by a school district for school purposes shall file with the State Comptroller a verified statement describing such bond and alleging default in the payment thereof or the interest thereon or both, it shall be the duty of the State Comptroller to immediately investigate the circumstances of the alleged default and prepare and file in his office a certificate setting forth his determinations with respect thereto and to serve a copy thereof by registered mail upon the chief fiscal officer of the school district which issued the bond. Such investigation by the State Comptroller shall cover the current status with respect to the payment of principal of and interest on all outstanding bonds of such school district issued for school purposes and the statement prepared and filed by the State Comptroller shall set forth a description of all such bonds of the school district found to be in default and the amount of principal and interest thereon past due.

Upon the filing of such a certificate in the office of the State Comptroller, he shall thereafter deduct and withhold from the next succeeding allotment, apportionment or payment of such State aid or assistance due to such school district such amount thereof as may be required to pay (a) the school district's contribution to the State teachers retirement system, and (b) the principal of and interest on such bonds of such school district then in default. In the event such State aid or assistance initially so withheld shall be insufficient to pay said amounts in full, the State Comptroller shall similarly deduct and withhold from each succeeding allotment, apportionment or payment of such State aid or assistance due such school district such amount or amounts thereof as may be required to cure such default. Allotments, apportionments and payments of such State aid so deducted or withheld by the State Comptroller for the payment of principal and interest on bonds shall be forwarded promptly to the paying agent or agents for the bonds in default of such school district for the sole purpose of the payment of defaulted principal of and interest on such bonds. If any of such successive allotments, apportionments or payments of such State Aid so deducted or withheld shall be less than the amount of all principal and interest on the bonds in default with respect to which the same was so deducted or withheld, the State Comptroller shall promptly forward to each paying agent an amount in the proportion that the amount of such bonds in default payable to such paying agent bears to the total amount of the principal and interest then in default on such bonds of such school district. The State Comptroller shall promptly notify the chief fiscal officer of such school district of any payment or payments made to any paying agent or agents of defaulted bonds pursuant to said Section 99-b.

General Municipal Law Contract Creditors' Provision. Each Bond when duly issued and paid for will constitute a contract between the School District and the holder thereof. Under current law, provision is made for contract creditors of the School District to enforce payments upon such contracts, if necessary, through court action. Section 3-a of the General Municipal Law provides, subject to exceptions not pertinent, that the rate of interest to be paid by the School District upon any judgement or accrued claim against it on an amount adjudged due to a creditor shall not exceed nine per centum per annum from the date due to the date of payment. This provision might be construed to have application to the holders of the Notes in the event of a default in the payment of the principal of and interest on the Notes.

Execution/Attachment of Municipal Property. As a general rule, property and funds of a municipal corporation serving the public welfare and interest have not been judicially subjected to execution or attachment to satisfy a judgement, although judicial mandates have been issued to officials to appropriate and pay judgements out of certain funds or the District may not be enforced to levy and execution against property owned by the School District.

Authority to File for Municipal Bankruptcy. The Federal Bankruptcy Code allows public bodies, such as municipalities, recourse to the protection of a Federal Court for the purpose of adjusting outstanding indebtedness. Section 85.80 of the Local Finance Law contains specific authorization or any municipality in the State or its emergency control board to file a petition under any provision of Federal bankruptcy law for the composition or adjustment of municipal indebtedness. While this Local Finance Law provision does not apply to school districts, there can be no assurance that it will not be made so applicable in the future.

Constitutional Non-Appropriation Provision. There is in the Constitution of the State, Article VII, Section 2, the following provision relating to the annual appropriation of monies for the payment of due principal of an interest on indebtedness of every county, city, town, Village and school district in the State: "If at any time the respective appropriating authorities shall fail to make such appropriations, a sufficient sum shall be set apart from the first revenues thereafter received and shall be applied to such purposes. The Fiscal officer of any county, city, town, village or school district may be required to set aside and apply such revenues as aforesaid at the suit of any holder of obligations issued for any such indebtedness." This constitutes a specific non-exclusive constitutional remedy against a defaulting municipality or school district; however, it does not apply in a context in which monies have been appropriated for debt service but the appropriating authorities decline to use such monies to pay debt service. However, Article VIII, Section 2 of the Constitution of the State also provides that the fiscal officer of any county, city, town, village or school district may be required to set apart and apply such revenues at the suit of any holder of any obligations of indebtedness issued with the pledge of the faith of the credit of such political subdivision.

The Constitutional provision providing for first revenue set asides does not apply to tax anticipation notes, revenue anticipation notes or bond anticipation notes.

Default Litigation. In prior years, certain events and legislation affecting a holder's remedies upon default have resulted in litigation. While courts of final jurisdiction have upheld and sustained the rights of bondholders, such courts might hold that future events including financial crises as they may occur in the State and in political subdivisions of the State require the exercise by the State or its political subdivisions of emergency and police powers to assure the continuations of essential public services prior to the payment of debt service.

No Past Due Debt. No principal of or interest on School District indebtedness is past due. The School has never defaulted in the payment of the principal of and interest on any indebtedness.

MARKET AND RISK FACTORS

There are various forms of risk associated with investing in the Notes. The following is a discussion of certain events that could affect the risk of investing in the Notes. In addition to the event cited herein, there are other potential risk factor that an investor must consider. In order to make an informed investment decision, an investor should be thoroughly familiar with the entire Official Statement, including its appendices, as well as all areas of potential risk.

The financial and economic condition of the District as well as the market for the Notes could be affected by a variety of factors, some of which are beyond the District's control. There can be no assurance that adverse events in the State and in other jurisdictions in the country, including for example, the seeking by a municipality or large taxable property owner of remedies pursuant to the Federal Bankruptcy Code or otherwise, will not occur which might affect the market price of and the market for the Notes. If a significant default or other financial crisis should occur in the affairs of the State or any other jurisdiction or any of its agencies or political subdivisions thereby further impairing the acceptability of obligations issued by borrowers within the State, both the ability of the District to arrange for additional borrowings, and the market for and market value of outstanding debt obligations, including the Notes, could be adversely affected.

The District relies in part on State aid to fund its operations. There can be no assurance that the State appropriations for State aid to school districts will be continued in future years, either pursuant to existing formulas or in any form whatsoever. State aid appropriated and apportioned to the District can be paid only if the State has such monies available therefore. The availability of such monies and the timelines of such payments may also be affected by a delay in the adoption of the State budget and other circumstances, including state fiscal stress. In any event, State aid appropriated and apportioned to the District can be paid only if the State has such monies available therefore.

Should the District fail to receive State aid expected from the State in the amounts and at the times expected, occasioned by a delay in the payment of such monies or by a reduction in State aid, the District is authorized by the Local Finance Law to provide operating funds by borrowing on account of the uncollected State aid. The enactment of the Tax Levy Limitation Law, which imposes a tax levy limitation upon municipalities, school districts and fire districts in the State, including the School District could have an impact upon the market price of the Notes.

Current and future legislative proposals, if enacted into law, or clarification of the Code or court decisions may cause interest on the Notes to be subject, directly or indirectly, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent the beneficial owners of the Notes from realizing the full current benefit of the tax status of such interest. No assurance can be given that pending or future legislation or amendments to the Code, if enacted into law, or any proposed legislation or amendments to the Code, will not adversely affect the value of the Notes, or tax status of interest on the Notes.

Cyber Security

The District, like many other public and private entities, relies on technology to conduct its operations. As a recipient and provider of personal, private, or sensitive information, the District faces multiple cyber threats including, but not limited to hacking, viruses, malware and other attacks on computer and other sensitive digital networks and systems. To mitigate the risk of business operations impact and/or damage from cyber incidents or cyber-attacks, the District invests in various forms of cybersecurity and operation controls; however, no assurances can be given that such security and operational control measures will be completely successful to guard against cyber threats and attacks. The results of any such attack could impact business operations and/or damage District digital networks and systems and the costs of remedying any such damage could be substantial.

COVID – 19

The COVID-19 outbreak spread globally, including to the United States, and was declared a pandemic by the World Health Organization. The outbreak caused the Federal government to declare a national state of emergency, which was followed by the enactment of a variety of stimulus measures designed to address financial stability and liquidity issues caused by the outbreak. The State also declared a state of emergency and the Governor took steps designed to mitigate the spread and impacts of COVID-19. The outbreak of the disease has affected travel, commerce and financial markets globally and is widely expected to continue to affect economic growth worldwide. Pursuant to an Executive Order of the Governor, the School District was closed from March 16, 2020 through the end of the 2019-20 school year. The School District reopened in September, 2020 and has continued to operate during the 2020-21, 2021-22 and 2022-23 school years in a manner that was consistent with guidelines established by the State. Efforts to contain the spread of COVID-19 have reduced the spread of the virus and the restrictions put in place following the initial outbreak have been relaxed. The Biden administration allowed the coronavirus public health emergency to expire in May, 2023. Nevertheless, the outbreak of COVID-19 and the dramatic steps taken by the Federal

government and State government to address it may negatively impact federal and local economies, including the economy of the State. The full impact of COVID-19 on the State's operations and financial condition is not expected to be known for some time. Similarly, the degree of the impact to the School District's operations and finances as a result of COVID-19 is extremely difficult to predict due to the uncertainties relating to its (i) duration, and (ii) severity, as well as with regard to what actions have been or may continue to be taken by governmental and other health care authorities, including the State, to contain or mitigate its impact. Any resurgence of COVID-19 could have a material adverse effect on the State and municipalities and school districts located in the State, including the School District. The School District is monitoring the situation and will take such proactive measures as may be required to maintain its operations and meet its obligations.

TAX EXEMPTIONS

In the opinion of Barclay Damon LLP, Bond Counsel to the School District, under existing law, and assuming compliance with the certain covenants described herein and the accuracy and completeness of certain representations, certifications of fact and statements of reasonable expectations made by the School District, interest on the Notes is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code"). Bond Counsel is further of the opinion that interest on the Notes is not an item of tax preference for purposes of the alternative minimum tax imposed under the Code, however, for tax years beginning after December 31, 2022, interest on the Notes that is included in the "adjusted financial statement income" of certain corporations is not excluded from the corporate alternative minimum tax under the Code. Bond Counsel also is of the opinion that, under existing law, interest on the Notes is exempt from personal income taxes imposed by the State of New York or any political subdivision thereof (including The City of New York).

Bond Counsel expresses no opinion regarding any other federal, state or local tax consequences with respect to the Notes. The opinion of Bond Counsel will speak as of its date of issue and will not contain or provide any opinion or assurance regarding the future activities of the School District, or about the effect of future changes in the Code, the applicable regulations, rulings, judicial decisions, the interpretation thereof or the enforcement thereof by the Internal Revenue Service (the "IRS"). In addition, Bond Counsel expresses no opinion on the effect of any action taken or not taken in reliance upon an opinion of other counsel regarding federal, state or local tax matters, including, without limitation, the exclusion of interest on the Notes from gross income for federal income tax purposes.

General

The Code imposes certain requirements that must be met subsequent to the issuance and delivery of the Notes in order that interest on the Notes be and remain excluded from gross income for federal income tax purposes pursuant to Section 103 of the Code. Included among these requirements are restrictions on the investment and use of proceeds of the Notes and the rebate of certain earnings in respect of such investments to the United States. The School District and others have made certain representations, certifications of fact, and statements of reasonable expectations and the School District has given certain ongoing covenants to comply with applicable requirements of the Code to assure the exclusion of interest on the Notes from gross income under Section 103 of the Code. The opinion of Bond Counsel assumes continuing compliance with such covenants as well as the accuracy and completeness of such representations, certifications of fact, and statements of reasonable expectations.

In the event of the inaccuracy or incompleteness of any such representations, certifications or statements of reasonable expectation, or of the failure by the School District to comply with any such covenant, the interest on the Notes could become includable in gross income for federal income tax purposes retroactive to the date of original execution and delivery of the Notes, regardless of the date on which the event causing such inclusion occurs. Further, although the interest on the Notes is excluded from gross income for federal income tax purposes, receipt or accrual of the interest may otherwise affect the tax liability of a Beneficial Owner of the Notes. The tax effect of receipt or accrual of the interest will depend upon the tax status of a Beneficial Owner of the Notes and such Beneficial Owner's other items of income, deduction or credit. Bond Counsel expresses no opinion regarding any other federal tax consequences arising with respect to the ownership or disposition, or the accrual or receipt of interest on, the Notes.

Certain Collateral Federal Income Tax Consequences

Prospective purchasers of the Notes should be aware that ownership of, accrual or receipt of interest on, or disposition of the Notes may have collateral federal income tax consequences for certain taxpayers, including financial corporations, insurance companies, Subchapter S corporations, certain foreign corporations, individual recipients of social security or railroad retirement benefits, individuals benefiting from the earned income credit and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry such obligations. Prospective purchasers should consult their own tax advisors as to any possible collateral consequences of their ownership of, accrual or receipt of interest on, or disposition of the Notes. Bond Counsel expresses no opinion regarding any such collateral federal income tax consequences.

Backup Withholding and Information Reporting

Interest paid on tax-exempt obligations is subject to information reporting to the IRS in a manner similar to interest paid on taxable obligations. Interest on the Notes may be subject to backup withholding if such interest is paid to a registered owner who or which (i) fails to provide certain identifying information (such as the registered owner's taxpayer identification number) in the manner required by the IRS, or (ii) has been identified by the IRS as being subject to backup withholding. Amounts withheld under the backup withholding rules will be paid to the IRS as federal income tax withheld on behalf of the registered owner of the Notes and would be allowed as a refund or credit against such owner's federal income tax liability (or the federal income tax liability of the beneficial owner of the Notes, if other than the registered owner).

Legislation

Current and future legislative proposals, if enacted into law, administrative actions or court decisions, at either the federal or state level, may cause interest on the Notes to be subject, directly or indirectly, to federal income taxation or to be subjected to state income taxation, or otherwise have an adverse impact on the potential benefits of the exclusion from gross income of the interest on the Notes for federal or state income tax purposes. The introduction or enactment of any such legislative proposals, administrative actions or court decisions may also affect, perhaps significantly, the value or marketability of the Notes. It is not possible to predict whether any legislative or administrative actions or court decisions having an adverse impact on the federal or state income tax treatment of Beneficial Owners of the Notes may occur. Prospective purchasers of the Notes should consult their own advisors regarding any pending or proposed federal or state tax legislation, regulations or litigation, and regarding the impact of future legislation, regulations or litigation, as to which Bond Counsel expresses no opinion. The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authority and represents the judgment of Bond Counsel as to the proper treatment of the Notes for federal income tax purposes. It is not binding on the IRS or the courts.

The Notes will be designated by the School District as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code and, in the case of certain financial institutions (within the meaning of Section 265(b) of the Code), a deduction is allowed for 80% of that portion of the interest expense of such financial institutions that shall be allocable to interest on the Notes.

The opinion of Bond Counsel set forth above with respect to the Federal income tax treatment of interest paid on the Notes is based upon the current provisions of the Code.

Tax legislation, administrative actions taken by tax authorities or court decisions, whether at the federal or state level, may adversely affect the tax-exempt status of interest on the Notes under federal or state law or otherwise prevent Holders from realizing the full current benefit of the tax-exempt status of interest on the Notes. In addition, such legislation or actions (whether currently proposed, proposed in the future or enacted) and such decisions could affect the market price or marketability of the Notes. Prospective purchasers of the Notes should consult their own tax advisors regarding pending or proposed tax legislation, administrative actions taken by tax authorities or court decisions, and regarding the impact of future legislation, administrative actions or court decisions.

APPROVAL OF LEGAL PROCEEDINGS

The validity of the Notes will be covered by the unqualified legal opinion of Barclay Damon LLP, Bond Counsel to the School District, such opinion to be delivered with the Notes. The proposed form of such opinion is attached hereto as Appendix C

CONTINUING DISCLOSURE COMPLIANCE

In accordance with the provisions of Rule 15c2-12, as the same may be amended or officially interpreted from time to time (the "Rule"), promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, the School District will enter into an Undertaking to provide Material Event Notices, the description of which is attached hereto as "Appendix D".

The District is in compliance in all material respects, within the last five years with all previous undertakings made pursuant to the Rule 15c2-12.

LITIGATION

The School District is subject to a number of lawsuits in the ordinary conduct of its affairs. The School District does not believe, however, that such suits, individually or in the aggregate, are likely to have a material adverse effect on the financial condition of the School District.

BOND RATING

The most recent underlying rating assigned to the School District by Standard & Poor's Rating Service, a division of the McGraw-Hill Companies, Inc., is an A+ rating, which was assigned in connection with the issuance by the School District of \$3,520,000 School District Refunding (Serial) Bonds dated October 7, 2020.

Generally, ratings agencies base their ratings on the information and materials furnished to it and on investigations, studies and assumptions by the respective rating agency. There is no assurance that a particular rating will apply for any given period of time or that it will not be lowered or withdrawn entirely if, in the judgment of the agency originally establishing the rating circumstances so warrant. Any downward revision or withdrawal of the rating of the outstanding bonds may have an adverse effect on the market price of the Notes.

MUNICIPAL ADVISOR

R.G. Timbs, Inc. is a Municipal Advisor, registered with the Securities and Exchange Commission and the Municipal Securities Rulemaking Board. The Municipal Advisor serves as independent municipal advisor to the District on matters relating to debt management. The Municipal Advisor is a municipal advisory and consulting organization and is not engaged in the business of underwriting, marketing, or trading municipal securities or any other negotiated instruments. The Municipal Advisor has provided advice as to the plan of financing and the structuring of the Notes and has reviewed and commented on certain legal documents, including this Official Statement. The advice on the plan of financing and the structuring of the Notes was based on materials provided by the District and other sources of information believed to be reliable. The Municipal Advisor has not audited, authenticated, or otherwise verified the information provided by the District or the information set forth in this Official Statement or any other information available to the District with respect to the appropriateness, accuracy, or completeness of disclosure of such information and no guarantee, warranty, or other representation is made by the Municipal Advisor respecting the accuracy and completeness of or any other matter related to such information and this Official Statement.

MISCELLANEOUS

The execution and delivery of this Official Statement have been duly authorized by the Board of Education of the School District. Concurrently with the delivery of the Notes, the School District will furnish a certificate to the effect that as of the date of the Official Statement, the Official Statement did not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, subject to the condition that while information in the Official Statement obtained from sources other than the School District is not guaranteed as to accuracy, completeness or fairness, the School District has no reason to believe and does not believe that such information is materially inaccurate or misleading, and to the knowledge of the School District, since the date of the Official Statement, there have been no material transactions not in the ordinary course of affairs entered into by the School District and no material adverse changes in the general affairs of the School District or in its financial condition as shown in the Official Statement other than as disclosed in or contemplated by the Official Statement. Certain information contained in the Official Statement has been obtained from sources other than the School District. All quotations from and summaries and explanations of provisions of laws herein do not purport to be complete and reference is made to such laws for full and complete statements of their provisions.

INDEPENDENT AUDITORS' REPORT

To the President and the Other Members
of the Board of Education of the
West Canada Valley Central School District
Newport, New York

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the West Canada Valley Central School District (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of funding progress – changes in total other post-employment benefits liability and related ratios, and schedule of local government's proportionate share of the net pension liability and contributions on pages 4 through 12 and 47 through 51 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The supplementary information on pages 52 through 54 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 12, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

WEST CANADA VALLEY CENTRAL SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2022

The following is a discussion and analysis of the School District's financial performance for the fiscal year ended June 30, 2022. This section is a summary of the School District's financial activities based on currently known facts, decisions or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: MD&A (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School District:

The first two statements are *District-wide* financial statements that provide both short-term and long-term information about the School District's overall financial status.

The remaining statements are *fund financial statements* that focus on individual parts of the School District, reporting the School District's operations in more detail than the District-wide statements.

The *governmental funds statements* tell how basic services such as general and special education were financed in the short-term, as well as what remains for future spending.

Fiduciary funds statements provide information about the financial relationships in which the School District acts solely as a custodian for the benefit of others.

The financial statements also include notes that provide additional information about the financial statements and the balances reported. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the School District's budget for the year.

Table A-1 summarizes the major features of the School District's financial statements, including the portion of the School District's activities that they cover and the types of information that they contain. The remainder of this overview section highlights the structure and contents of each statement.

Table A-1 Major Features of the District-wide and Fund Financial Statements

	District-Wide	Fund Financial Statements	
		Governmental Funds	Fiduciary Funds

Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid

District-Wide Statements

The District-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the School District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the School District's *net position* and how they have changed. Net position – the difference between the School District's assets and liabilities – is one way to measure the School District's financial health or position.

- Over time, increases or decreases in the School District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the School District, additional nonfinancial factors such as changes in the property tax bases and the condition of buildings and other facilities should be considered.

Net position of the governmental activities differ from the governmental fund balance because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (dollars) are expended to purchase or build such assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. Principal and interest payments are considered expenditures when paid. Depreciation is not calculated. Capital assets and long-term debt are accounted for in account groups and do not affect the fund balance.

District-wide statements use an economic resources measurement focus and full accrual basis of accounting that involves the following steps to prepare the statement of net position.

- Capitalize current outlays for capital assets.
- Report long-term debt as a liability.
- Calculate revenue and expenditures using the economic resources measurement focus and the full accrual basis of accounting.
- Allocate net position balances as follows:
 - Net position invested in capital assets, net of debt.
 - Restricted net positions are those with constraints placed on use by external sources or imposed by law.
 - Unrestricted net positions are net positions that do not meet any of the above restrictions.

Fund Financial Statements

The fund financial statements provide more detailed information about the School District's funds, focusing on its most significant or "major" funds - not the School District as a whole. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

The District has two kinds of funds:

- **Governmental Funds:** Most of the School District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can be readily converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs.

Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them. The governmental fund statements focus primarily on current financial resources and often have a budgetary orientation. Governmental funds include the general fund, special aid fund, school lunch fund, miscellaneous special revenue fund and the capital project fund. Required financial statements are the balance sheet and the statement of revenue, expenditures and changes in fund balances.

- **Fiduciary Fund:** The School District is the custodian of assets that belong to others, such as the student activities funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net positions and changes in net positions.

Changes in Net Position

The School District's 2022 revenue was \$18,902,706 (see Table A-3). Property taxes and New York State aid accounted for the majority of revenue by contributing 28.9% and 62.1%, respectively, of the total revenue raised (see Table A-4). The remainder of revenue came from fees for services, use of money and property, operating grants and other miscellaneous sources.

The total cost of all programs and services totaled \$17,597,734 for 2022. Of these expenses (76.8%) are predominantly for the education, supervision and transportation of students (see Table A-5). The School District's administrative, occupancy and business activities accounted for 18.6% of total costs.

Net position increased during the year by \$1,304,972.

Governmental Activities

Revenue for the School District's governmental activities totaled \$18,902,706 while total expenses were \$17,597,734. Accordingly, net position increased by \$1,304,972.

Table A-6 presents the cost of several of the School District's major activities. The table also shows each activity's net cost (total cost less fees generated by the activity and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the School District's taxpayers by each of these functions.

- The cost of all governmental activities for the year was \$17,597,734.
- The users of the School District's programs financed \$31,888 of the costs.
- The federal and state government grants financed \$1,256,113.
- The majority of costs were financed by the School District's taxpayers and state aid.

This section presents an analysis of significant variances between original and final budget amounts and between final budget amounts and actual results for the General Fund.

The District saw reduced revenues as it was affected by a reduced state aid. In the area of employee benefits, the District's health insurance did not increase to the level that they had expected.

The General Fund is the only fund for which a budget is legally adopted.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of June 30, 2022, the School District had \$22,377,243 (net of depreciation and amortization) invested in a broad range of capital assets including land, buildings, buses, athletic facilities, computers and other educational equipment.

During 2022, the School District issued \$298,505 in new bonds and paid down its debt by retiring \$1,484,339 of outstanding bonds. Other debt represented compensated absences and other post-employment benefits.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The District continues to re-establish stability and a long-term vision with respect to financial constraints and academic programs.

NOTES TO BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the West Canada Valley Central School District (the “District”) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Significant accounting principles and policies utilized by the District are described below:

A. Reporting Entity

The West Canada Valley Central School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of 7 members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls, all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 39, *Component Units*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and other organizational entities determined to be includable in the District's financial reporting entity. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District’s reporting entity is based on several criteria including legal standing, fiscal dependency and financial accountability. Based on the application of these criteria, the following is a brief description of an entity included in the District’s reporting entity.

i) Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found with these financial statements. The District accounts for these funds in the custodial fund.

B. Joint Venture

The District is a component district in the Herkimer County Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services and programs that provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under Section 1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of Section 1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (Section 1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under Section 119-n(a) of the New York State General Municipal Law.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

B. Joint Venture – (Continued)

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, Section 1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year, the District was billed \$2,780,838 for BOCES administrative and program costs.

Participating school districts issue debt on behalf of BOCES. During the year, the District issued \$-0- of serial bonds on behalf of BOCES. As of year-end, the District had outstanding BOCES debt of \$-0-.

The District's share of BOCES aid amounted to \$1,261,419.

Financial statements for the BOCES are available from the BOCES administrative office.

C. Basis of Presentation

1. District-Wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary.

Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Net Position presents the financial position of the District at fiscal year-end. The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Funds Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

C. Basis of Presentation – (Continued)

2. Funds Statements – (Continued)

The District reports the following major governmental funds:

General Fund – This is the District’s primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Aid Funds – These funds account for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes, child nutrition or other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds or by outside parties.

Capital Projects Fund – These funds are used to account for the financial resources used for acquisition, construction or major repair of capital facilities.

Debt Service Fund – This fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities. When a capital asset is sold and all or a portion of the bonds used to finance the capital asset are outstanding, this fund must be used to account for the proceeds from the sale of capital assets up to the balance of the related bonds outstanding.

Miscellaneous Special Revenue Fund – Miscellaneous Special Revenue Fund is used to account for those revenues that are legally restricted to expenditures for a specific purpose.

The District reports the following fiduciary fund:

Custodial Fund – Fiduciary activities are those in which the District acts as custodian for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District and are not available to be used.

D. Measurement Focus and Basis of Accounting

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, state aid, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from state aid is recognized in the fiscal year it is appropriated by the state. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

WEST CANADA VALLEY CENTRAL SCHOOL DISTRICT

NOTES TO BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

D. Measurement Focus and Basis of Accounting – (Continued)

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 65 days after the end of the fiscal year, except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year as it matches the liquidation of related obligations.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, pensions and other post-employment benefits, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E. Property Taxes

Real property taxes are levied annually by the Board of Education no later than September 1 and become a lien on September 1. Taxes are collected during the period September 1 to October 31.

Uncollected real property taxes are subsequently enforced by the Counties of Herkimer and Oneida in which the District is located. The Counties pay an amount representing uncollected real property taxes transmitted to the Counties for enforcement to the District no later than the following April 1.

F. Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net positions are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

G. Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditure and revenues to provide financing or other services.

In the District-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 8 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity.

H. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

I. Cash (and Cash Equivalents)/Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition.

New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

Investments are stated at fair value.

J. Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

K. Inventories and Prepaid Items

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amount is recorded at the time of receipt and/or purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A reserve for these nonliquid assets (inventories and prepaid items) has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

L. Capital Assets

Capital assets are reported at actual cost when such data was available. For assets in which there was no data available, estimated historical costs, based on direct costing, standard costing or normal costing methods, were used. Donated assets are reported at estimated fair market value at the time received.

Land and construction in process are not depreciated. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings	\$ 10,000	Straight-line	50
Building improvements	10,000	Straight-line	50
Site improvements	10,000	Straight-line	50
Furniture and equipment	10,000	Straight-line	8-15

M) Right to Use Assets

Right to use assets are reported at actual cost or estimated historical cost. Right to use assets are amortized using the straight line method over the estimated useful life of the asset. All right to use assets are furniture and equipment which are amortized over a 3-5 year period.

N. Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. The separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category. The first item is related to pensions reported in the District-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second is the District contributions to the pension systems (TRS and ERS Systems) and OPEB subsequent to the measurement date. The third item relates to OPEB reporting in the District-wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience.

In addition to liabilities, the Statement of Net Position or Balance Sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has four items that qualify for reporting in this category. First arises only under a modified accrual basis of accounting and is reported as unavailable revenue – property taxes. The second item is related to pensions reported in the District-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability (ERS System) and net pension asset (TRS System) and difference during the measurement periods between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is revenues from grants received that have met all other eligibility requirements except those related to time restrictions. The fourth item is related to OPEB reporting in the District-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

N. Deferred Outflows and Inflows of Resources – (Continued)

Pension Assets, Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported the following asset (liability) for its proportionate share of the net pension asset (liability) for each of the Systems. The net pension asset (liability) was measured as of March 31, 2022 for ERS and June 30, 2021 for TRS. The total pension asset (liability) used to calculate the net pension asset (liability) was determined by an actuarial valuation. The District's proportion of the net pension asset (liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

For the year ended June 30, 2022, the District recognized its proportionate share of pension expense of \$300,678 for ERS and \$509,487 for TRS. At June 30, 2022, the District's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources were:

District contributions subsequent to the measurement date which will be recognized as a reduction of the net pension asset (liability) in the year ended March 31, 2023 for ERS and June 30, 2023 for TRS. Other amounts reported as deferred outflows of resources and deferred (inflows) of resources related to pensions will be recognized in pension expense as follows:

		ERS		TRS

	2026	(66,266)		232,327
	2027	0		165,796
	Thereafter	0		0

Actuarial Assumptions

The total pension asset (liability) as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension asset (liability) to the measurement date. The actuarial valuations used the following actuarial assumptions:

	ERS	TRS
Measurement date	March 31, 2022	June 30, 2021
Actuarial valuation date	April 1, 2021	June 30, 2020
Interest rate	5.9%	6.95%
Salary scale	4.4%	1.95% - 5.18%
Decrement tables	April 1, 2015 - March 31, 2020	July 1, 2015 - June 30, 2020
	Systems experience	Systems experience
Inflation rate	2.7%	2.40%
Projected cost of living adjustments	1.4%	1.3%

For ERS, annuitant mortality rates are based on April 1, 2015 through March 31, 2020 System's experience with adjustments for mortality improvements based on MP-2020. For TRS, annuitant mortality rates are based on July 1, 2015 through June 30, 2020 System's experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2020.

For ERS, the actuarial assumptions used in the April 1, 2021 valuation are based on the results of an actuarial experience study for the period April 1, 2015 through March 31, 2020. For TRS, the actuarial assumptions used in the June 30, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2020.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

N. Deferred Outflows and Inflows of Resources – (Continued)

Actuarial Assumptions – (Continued)

The long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by each target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

Measurement date	<u>ERS</u> March 31, 2022	<u>TRS</u> June 30, 2021
<u>Asset type</u>		
Domestic equity	3.30%	6.8%
International equity	5.85	7.6
Global equities	0	7.1
Real estate	5.00	6.5
Domestic fixed income securities	0	1.3
Global fixed income securities	0	0.8
High-yield fixed income securities	0	3.8
Real estate debt	0	3.3
Private debt	0	5.9
Credit	3.78	0
Private equity/alternative investments	6.50	10.0
Absolute return strategies	4.10	0
Opportunistic portfolio	4.10	0
Cash	(1.00)	(0.2)
Real assets	5.80	0

Discount Rate

The discount rate used to calculate the total pension asset (liability) was 5.9% for ERS and 6.95% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset (liability).

Sensitivity of the Proportionate Share of the Net Pension Asset (Liability) to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension asset (liability) calculated using the discount rate of 5.9% for ERS and 6.95% for TRS, as well as what the District's proportionate share of the net pension asset (liability) would be if it were calculated using a discount rate that is 1 percentage point lower (4.9% for ERS and 5.95% for TRS) or 1 percentage point higher (6.9% for ERS and 7.95% for TRS) than the current rate:

Payables to the Pension Plans

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31. Accrued retirement contributions as of June 30, 2022 represent the projected employer contribution for the period of April 1, 2022 through June 30, 2022 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2022 amounted to \$94,735.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2022 are paid to the System in September, October and November 2022 through a state aid intercept. Accrued retirement contributions as of June 30, 2022 represent employee and employer contributions for the fiscal year ended June 30, 2022 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2022 amount to \$577,265.

Additional pension information can be found in Note 9.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

O. Unearned Revenue

The District reports unearned revenues on its Statement of Net Position and its Balance Sheet. On the Statement of Net Position, unearned revenue arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to incurrence of qualifying expenditures. In subsequent periods, when the District has legal claim to resources, the liability for unearned revenue is removed and revenue is recognized. The District had \$377,027 in unearned revenue at June 30, 2022.

P. Vested Employee Benefits

Compensated Absences

Compensated absences consist of unpaid accumulated annual sick leave and vacation.

Sick leave eligibility and accumulation is specified in negotiated labor contracts and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement 16, *Accounting for Compensated Absences*, the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the District-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year end.

In the fund statements, only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

Q. Other Benefits

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the District provides post-employment health insurance coverage and survivor benefits to retired employees and their survivors in accordance with the provision of various employment contracts in effect at the time of retirement.

Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure.

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

R. Short-Term Debt

The District may issue Revenue Anticipation Notes (RANs) and Tax Anticipation Notes (TANs), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued.

The District may issue deficiency notes up to an amount not to exceed 5% of the amount of that same year's annual budget in any fund or funds arising from revenues being less than the amount estimated in the budget for that fiscal year. The deficiency notes may mature no later than the close of the fiscal year following the fiscal year in which they were issued. However, they may mature no later than the close of the second fiscal year after the fiscal year in which they were issued, if the notes were authorized and issued after the adoption of the budget for the fiscal year following the year in which they were issued.

The District may issue Bond Anticipation Notes (BANs), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date.

S. Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities and long-term obligations are reported in the District-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other post-employment benefits payable and compensated absences that will be paid from governmental funds, are reported as a liability in the fund's financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

T. Equity Classifications

District-Wide Statements

In the District-wide statements, there are three classes of net position:

i) Net Investment in Capital Assets

Consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvements of those assets.

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

District-Wide Statements – (Continued)

ii) Restricted Net Position

Reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

iii) Unrestricted Net Position

Reports the balance of net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

Funds Statements

In the fund basis statements, there are five classifications of fund balance:

1. Nonspendable

Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance includes the inventory recorded in the School Lunch Fund of \$7,565.

2. Restricted

Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General Fund are classified as restricted fund balance.

The District has established the following restricted fund balances:

Currently Utilized by the District:

Debt Service

According to General Municipal Law §6-1, the Mandatory Reserve for Debt Service, must be established for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations that remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of School District property or capital improvement. This reserve is accounted for in the Debt Service Fund under Restricted Fund Balance.

2. Restricted – (Continued)

Currently Utilized by the District: – (Continued)

Retirement Contributions

According to General Municipal Law §6-r, must be used for financing retirement contributions to the New York State and Local Employees' Retirement System. This reserve is established by Board resolution and is funded by budgetary appropriation and such other reserves and funds that may be legally appropriated. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board. Effective April 1, 2019, a Board may adopt a resolution establishing a sub-fund for contributions to the New York State Teachers' Retirement System. During the fiscal year, the Board may authorize payment into the sub-fund of up to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The sub-fund is separately administered, but must comply with all the existing provisions of General Municipal Law §6-r. This reserve is accounted for in the General Fund under Restricted Fund Balance.

Workers' Compensation

According to General Municipal Law §6-j, must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the General Fund under Restricted Fund Balance.

3. Committed

Includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, i.e., the Board of Education. The School District has no committed fund balances as of June 30, 2022.

4. Assigned

Includes amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed. The purpose of the constraint must be narrower than the purpose of the General Fund, and in funds other than the General Fund. Assigned fund balance represents the residual amount of fund balance. Assigned fund balance also includes an amount appropriated to partially fund the subsequent year's budget, as well as encumbrances not classified as restricted at the end of the fiscal year.

5. Unassigned

Includes all other General Fund amounts that do not meet the definitions of the above four classifications and are deemed to be available for general use by the District. In funds other than the General Fund, the unassigned classification is used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted or assigned.

NYS Real Property Tax Law §1318 limits the amount of unexpended surplus funds, excluding the reserve for tax reduction, a school district can retain to no more than 4% of the School District's budget for the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

Order of Use of Fund Balance

The Board has adopted Policy #5571 allowing establishment or removal of assignments of fund balance through Board resolution based on the recommendation of the Superintendent of Schools. Policy #5571 further denotes the order of use of fund balance to be recommended to the Board of Education by the Superintendent of Schools on an annual basis.

U. New Accounting Standards

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2022, the District implemented the following new standards issued by GASB:

GASB has issued Statement No. 87, *Leases*, effective for the year ending June 30, 2022. This statement requires the recognition of certain lease assets and liabilities for leases previously classified as operating leases along with recognition of inflows and outflows of resources, as appropriate.

GASB has issued Statement No. 89, *Accounting Interest Cost Incurred before the End of a Construction Period*, effective for the year ending June 30, 2022. This statement requires that interest cost incurred during construction be expensed in that period rather than being included in the cost of the capital asset.

GASB has issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, portions of the statement are effective for the year ending June 30, 2022. This statement increases consistency and comparability related to the reporting of fiduciary component units which do not have a governing board.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

V. Future Changes in Accounting Standards

GASB has issued Statement No. 91, *Conduit Debt Obligations*, effective for the year ending June 30, 2023. This statement provides a single method of reporting conduit debt obligations by issuers.

GASB has issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, effective for the year ending June 30, 2023. This statement improves the financial reporting related to Public-Private and Public-Public Partnerships to provide services.

GASB has issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for the year ending June 30, 2023. This statement requires the recognition of a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability for subscription-based information technology arrangements for government end users.

GASB has issued Statement No. 101, *Compensated Absences*, effective for the year ending June 30, 2025. This Statement amends the existing requirements related to Compensated Absences by updating the recognition and measurement guidance.

The District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the funds statements and the District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the District-wide statements, compared with the current financial resources focus of the governmental funds.

A. Total Fund Balance of Governmental Funds vs. Net Position of Governmental Activities

Total fund balances of the District’s governmental funds differ from “net position” of governmental activities reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund balance sheets, as applied to the reporting of capital assets and long-term liabilities, including pensions and other post-employment benefits.

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities

Differences between the funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of five broad categories, as described below:

i) Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenues only when they are considered “available”, whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS – (CONTINUED)

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities – (Continued)

ii) Capital Related Differences

Capital related differences include the difference between proceeds for the sale of capital assets reported on fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the fund statements and depreciation expense on those items as recorded in the Statement of Activities.

iii) Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

iv) Pension Differences

Pension differences occur as a result of changes in the District's proportion of the collective net pension asset (liability) and differences between the District's contributions and its proportionate share of the total contributions to the pension systems.

v) OPEB Differences

OPEB differences occur as a result of changes in the District's total OPEB liability and differences between the District's contributions and OPEB expense.

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted.

The voters of the District defeated the proposed appropriation budget; consequently, the Board of Education adopted a contingency budget, which includes appropriations for teachers' salaries and other ordinary contingent expenses. Under a contingency budget, the District's tax levy may not be greater than the tax levied for the prior school year. However, the administrative component of a contingency budget, exclusive of the capital component, may not comprise a greater percentage of the budget than the lesser of that percentage of the prior year's budget, or the percentage in the last defeated budget.

Appropriations are adopted at the program line item level.

WEST CANADA VALLEY CENTRAL SCHOOL DISTRICT

NOTES TO BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – (CONTINUED)

Budgets – (Continued)

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. No supplemental appropriations occurred during the year.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project fund expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as restrictions or assignments of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred, or the commitment is paid.

New York State Real Property Tax Law Limit

The portion of the District's fund balance subject to the New York State Real Property Tax Law §1318 limit exceeded the amount allowable, which is 4% of the District's budget for the upcoming school year.

Deficit Fund Balance

The School Lunch Fund had a deficit fund balance of \$68,097 at June 30, 2022. This deficit will be eliminated in future years.

The Capital Fund had a deficit fund balance of \$172,926 at June 30, 2022. This deficit will be eliminated in future years funding of the capital project.

NOTE 4 – CASH (AND CASH EQUIVALENTS) – CUSTODIAL CREDIT, CONCENTRATION OF CREDIT, INTEREST RATE AND FOREIGN CURRENCY RISKS

Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District’s investment policies, as discussed previously in these Notes.

The District’s aggregate bank balances (disclosed in the financial statements), included balances not covered by depository insurance at year-end, collateralized as follows:

Uncollateralized	\$	0
Collateralized with securities held by the pledging financial institution, or its trust department or agent, but not in the District’s name		4,757,963

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year-end includes \$935,565 in governmental funds and \$68,564 in fiduciary funds.

NOTE 9 – PENSION PLANS

General Information

The District participates in the New York State Employees' Retirement System (NYSERS) and the New York State Teachers' Retirement System (NYSTRS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death and disability.

Plan Descriptions and Benefits Provided:

Teachers' Retirement System (TRS)

The District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits, as well as, death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The System issues a publicly available financial report that contains financial statements and required supplementary information. The report may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the TRS Comprehensive Annual Financial report, which can be found on the System's website at www.nystrs.org.

Employees' Retirement System (ERS)

The District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The New York State Retirement and Social Security Law (NYSRSSL) govern obligations of employers and employees to contribute, and benefits to employees. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Employees' Retirement System, Office of the State Comptroller, 110 State Street, Albany, NY 12244 or by referring to the ERS Comprehensive Annual Report, which can be found at www.osc.state.ny.us/retire/publications/index.php.

NOTE 9 – PENSION PLANS – (CONTINUED)

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3% of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010, who generally contribute 3.0% to 3.5% of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education Law.

The District is required to contribute at a rate determined actuarially by the Systems. The District contributions made to the Systems were equal to 100% of the contributions required for each year. Required contributions for the current and two preceding years were:

	<u>NYSTRS</u>	<u>NYSERS</u>
2021-2022	\$ 509,487	\$ 300,678
2020-2021	516,954	277,992
2019-2020	421,568	257,256

ERS has provided additional disclosures through entities that elected to participate in Chapter 260, 57 and 105.

Additional pension information can be found in Note 1 N.

NOTE 10 – POST-EMPLOYMENT (HEALTH INSURANCE) BENEFITS

General Information About the OPEB Plan:

Plan Description

The District administers a defined benefit OPEB plan that provides OPEB for all permanent full-time general employees of the District. The plan is a single-employer defined benefit OPEB plan (the Plan) administered by Article 11 of the State Compiled Statutes, which grants the authority to establish and amend the benefit terms and financing requirements to the District's Board, subject to applicable collective bargaining and employment agreements, and Board of Education policy. The Plan does not issue a separate financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Funding Policy

The obligations of the Plan members and employers are established by action of the District pursuant to applicable collected bargaining and other employment agreements. Employees contribute varying percentages of the premiums, depending on when retired and their applicable agreement. The District currently funds the Plan to satisfy current obligations on a pay-as-you-go basis.

Benefits Provided

The District provides healthcare and life insurance benefits for retirees and their dependents. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

NOTE 11 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. The risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage.

Consortiums and Self-Insured Plans

The District participates in Oneida Herkimer Madison Consortium Workers' Compensation Plan, a risk-sharing pool to insure Workers' Compensation claims. This is a public entity risk pool created under Article 5 of the Workers' Compensation Law to finance liability and risks related to Workers' Compensation claims. The District's share of the liability for unbilled and open claims has not been provided by the Pool at the time these financial statements were prepared but is thought to be no greater than prior contribution which the District has made to the Pool. The liability would be reported as a long-term debt.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

The District has received grants which are subject to audit by agencies of the federal and state governments. Such audits may result in disallowances and a request for a return of funds to the federal and state governments. The District's administration believes that disallowances, if any, would be immaterial.

NOTE 13 – TAX ABATEMENTS

The County of Herkimer enters into various property tax and sales tax (if applicable) abatement programs for the purpose of economic development. The School District's property tax revenue was reduced \$2,011,176. The District received Payment in Lieu of Tax (PILOT) payment totaling \$299,360.

JUNE 30, 2022

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the President and the Other Members
of the Board of Education of the
West Canada Valley Central School District
Newport, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of West Canada Valley Central School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated September 12, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered West Canada Valley Central School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of West Canada Valley Central School District's internal control. Accordingly, we do not express an opinion on the effectiveness of West Canada Valley Central School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether West Canada Valley Central School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH THE UNIFORM GUIDANCE**

To the President and the Other Members
of the Board of Education of the
West Canada Valley Central School District
Newport, New York

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited West Canada Valley Central School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management of the District is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

WEST CANADA VALLEY CENTRAL SCHOOL DISTRICT

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards presents the activity of federal award programs administered by the District, which is described in Note 1 to the District's accompanying financial statements, using the modified accrual basis of accounting. Federal awards that are included in the schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Matching costs (the District's share of certain program costs) are not included in the reported expenditures.

The basis of accounting varies by federal program consistent with the underlying regulations pertaining to each program.

The amounts reported as federal expenditures were obtained from the federal financial reports for the applicable program and periods. The amounts reported in these reports are prepared from records maintained for each program, which are reconciled with the District's financial reporting system.

NOTE 2 – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2022, the District had food commodities totaling \$3,826 in inventory.

NOTE 3 – SUBRECIPIENTS

No amounts were provided to subrecipients.

NOTE 4 – INDIRECT COST RATE

Indirect costs may be included in the reported expenditures, to the extent that they are included in the federal financial reports used as the source for the data presented. Certain of the District's federal award programs have been charged with indirect costs, based upon a 16.2% indirect cost rate calculated by the New York State Education Department. There is no other indirect cost allocation plan in effect.

NOTE 5 – CLUSTERS

The Special Education Cluster consists of Special Education – Grants to States and Special Education – Preschool Grants.

The Child Nutrition Cluster consists of Food Distribution, School Breakfast Program and National School Lunch Program.

INDEPENDENT AUDITORS' REPORT

To the President and the Other Members
of the Board of Education of the
West Canada Valley Central School District
Newport, New York

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying statement of assets and liabilities arising from cash transactions of the Extraclassroom Activity Funds of West Canada Valley Central School District (the District) as of June 30, 2022, and the related statement of revenues collected and expenses paid for the year then ended, and the related notes to the financial statements.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the assets, liabilities and fund balances of the Extraclassroom Activity Funds of the District as of June 30, 2022, and the revenues collected and expenses paid for the year then ended, on the basis of accounting described in Note 1.

Basis for Qualified Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. Insufficient accounting controls are exercised over cash receipts at the point of collections to the time of submission to the Central Treasurer. Accordingly, it was impracticable to extend our audit of such receipts beyond the amounts recorded.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

EXTRACLASSROOM ACTIVITY FUNDS

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The transactions of the Extraclassroom Activity Funds are considered part of the reporting entity of the West Canada Valley Central School District. The related year end cash balances are shown as part of the Custodial Fund. The Extraclassroom Activity Funds of West Canada Valley Central School District represent funds of the students of the District. The District's Board exercises general oversight on these funds. The Extraclassroom Activity Funds are independent of the District with respect to the financial transactions and the designation of student management.

The books and records of the West Canada Valley Central School District's Extraclassroom Activity Funds are maintained on the cash basis of accounting. Under this basis of accounting, revenues are recognized when cash is received, and expenditures recognized when cash is disbursed.

NOTE 2 – MANAGEMENT LETTER

Management letter items associated with the Extraclassroom Activity Funds are included in the management letter accompanying the District's financial statements.

September 12, 2022

To the President and the Other Members
of the Board of Education of the
West Canada Valley Central School District
Newport, New York

Re: Management Letter
June 30, 2022

In planning and performing our audit of the basic financial statements of the West Canada Valley Central School District for the year ended June 30, 2022, we considered the District's internal control to determine our auditing procedures for the purpose of expressing an opinion on the basic financial statements and not to provide assurance on internal control. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control that, in our judgment, could adversely affect the School District's ability to record, process, summarize and report financial data consistent with the assertions of management in the basic financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily disclose all matters that might be reportable. In addition, because of inherent limitations in internal control, misstatements due to error or fraud may occur and not be detected by such controls.

A material weakness is a condition in which the design or operation of one or more of these specific internal control components does not reduce to a relatively low level risk that errors or fraud, in amounts that would be material in relation to the basic financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control and its operations to be material weaknesses as defined above.

However, during our audit we became aware of the following matters, and we would like to make the following comments and recommendations:

Prior-Year Findings

1. Extraclassroom Activity Funds

Prior Condition: In the prior year testing of Extraclassroom Activity Funds, we found one instance where sales tax was not paid.

Status: This condition has been corrected for the year ended June 30, 2022.

2. **School Lunch Fund Deficit**

Prior Condition: The School Lunch Fund had a deficit fund balance of \$149,456.

Status: In the current year, the School Lunch Fund decreased the deficit by \$81,359 to a total deficit of \$68,097.

Recommendation: As food requirements are changing and costs continue to increase that are beyond the control of the school lunch manager, management and the Board of Education should review the School Lunch Fund pricing to determine if changes need to be made in order to restore fund balance.

3. **General Fund – Unassigned Fund Balance**

Prior Condition: The District currently has unassigned fund balance that has exceeded 4% of the subsequent year’s General Fund appropriation budget. Real property tax law states that the unassigned fund balance should not exceed 4% of the subsequent year’s General Fund appropriation budget.

Status: This condition remains unchanged as of June 30, 2022.

Recommendation: We recommend that the Board of Education take the necessary actions to reduce the District’s General Fund unassigned fund balance to statutory limits.

4. **Disbursement Testing**

Prior Condition: During our testing of disbursements, we noted several instances of missing signatures in the voucher packages as well as three instances of purchase orders dated after the invoice date.

Status: This condition has been corrected for the year ended June 30, 2022.

5. **Accounting for GASB 84**

Prior Condition: The District did not fully adopt GASB 84 prior to audit. This accounting pronouncement required the elimination of the Trust & Agency account. The District still had balances in this account at the time of audit.

Status: This condition has been corrected for the year ended June 30, 2022.

Current-Year Findings

1. **Payroll Testing**

Condition: During our testing of payroll, we noted two instances where the time sheet was not signed by the supervisor and one instance where the annual salary letter was not signed by the employee.

Recommendation: We recommend that management ensure all signatures are present for all timesheets and annual salary notices.

We appreciate the assistance and courtesies extended to us by your staff during our fieldwork. The Business Office was well prepared for our audit.

Please let us know if you would like to discuss our comments and recommendations.

Very truly yours,

APPENDIX C
Form of Legal Opinion

June __, 2023

Board of Education of the
West Canada Valley Central School District
Herkimer County, New York

Re: West Canada Valley Central School District
\$4,811,458 Bond Anticipation Notes, 2023

Dear Board Members:

We have acted as bond counsel to the West Canada Valley Central School District, a school district of the State of New York, situated in Herkimer County (the “Issuer”), in connection with the issuance of \$4,811,458_Bond Anticipation Notes, 2023, dated June 21, 2023 (the “Notes”). In such capacity, we have examined such law and such proceedings and other documents as we have deemed necessary to render this opinion.

As to questions of fact material to our opinion, we have relied upon the certified proceedings and other certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion that under existing law:

1. The Notes are valid and binding general obligations of the Issuer.
2. All taxable property in the territory of the Issuer is subject to ad valorem taxation, without limitation as to rate or amount to pay the Notes. The Issuer is required by law to include in its annual tax levy the principal and interest coming due on the Notes to the extent the necessary funds are not provided from other sources.
3. Interest on the Notes is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed under the Internal Revenue Code of 1986, as amended (the “Code”), however, for tax years beginning after December 31, 2022, interest on the Notes that is included in the “adjusted financial statement income” of certain corporations is not excluded from the corporate alternative minimum tax imposed under the Code.. The opinion set forth in the preceding sentence is subject to the condition that the Issuer comply with all requirements of the Code that must be satisfied subsequent to the issuance of the Notes in order that interest thereon be, or continue to be, excluded from gross income for federal income tax purposes. The Issuer has covenanted to comply with all such requirements. Failure to comply with all such requirements may cause interest on the Notes to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Notes. We express no opinion regarding other federal tax consequences arising with respect to the Notes.
4. In our opinion, interest on the Notes is exempt from personal income taxes imposed by New York State or any political subdivision thereof, including The City of New York.

Except as expressly stated above, we express no opinion as to any other federal or state income tax consequences of acquiring, carrying, owning or disposing of the Notes. Owners of the Notes should consult their tax advisors as to the applicability of any collateral tax consequences of ownership of the Notes, which may include original issuance discount, purchase at a market discount or at a premium, taxation upon sale, redemption or other disposition, and various withholding requirements.

It is to be understood that the rights of the owners of the Notes and the enforceability of the Notes may be limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights generally and by equitable principles, whether considered at law or in equity.

We express no opinion herein as to the accuracy, adequacy or completeness of the Official Statement relating to the Notes.

This opinion is given as of the date hereof and we assume no obligation to update or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Very truly yours,

FORM OF CONTINUING DISCLOSURE UNDERTAKING

FORM OF CONTINUING DISCLOSURE UNDERTAKING

In accordance with the requirements of Rule 15c2-12, as the same may be amended or officially interpreted from time to time (the "Rule"), promulgated by the Securities and Exchange Commission (the "Commission"), the School District has agreed to provide or cause to be provided,

- (i) to the Electronic Municipal Market Access ("EMMA") systems of the Municipal Securities Rulemaking Board ("MSRB") or any other entity designated or authorized by the Commission to receive reports pursuant to the Rule, during each fiscal year in which the Bonds are outstanding, (i) certain annual financial information and operating data for the preceding fiscal year in a form generally consistent with the information contained or cross referenced in the final Official Statement dated December 1, 2022 of the School District relating to the Bonds by December 31 following the end of each succeeding fiscal year, commencing with the fiscal year ending June 30, 2023, and (ii) a copy of the audited financial statements if any, (prepared in accordance with accounting principles generally accepted in the United States of America in effect at the time of the audit) for the preceding fiscal year, commencing with the fiscal year ending June 30, 2023; such audit, if any, will be so provided on or prior to the later of either December 31 of each such succeeding fiscal year or, if an audited financial statement at that time, within sixty days following receipt by the School District of its audited financial statement for the preceding fiscal year, but in any event not later than June 30 of each succeeding fiscal year: and provided further in the event that the audited financial statement for any fiscal year is not available by December 31 following the end of any such succeeding fiscal year, unaudited financial statements in the form provided to the State, if available, will be provided no later than said date; provided however, that provision of unaudited financial statements in any year shall be further conditioned upon the determination by the School District whether providing such unaudited financial statements complies with the requirements of federal Securities laws including Rule 10b-5 of the Securities Exchange Act of 1934 and Rule 17(a) (2) of Securities Act of 1933
- (ii) in a timely manner not in excess of ten (10) business days after the occurrence of the event, notice of the occurrence of any of the following events with respect to the Bonds, to EMMA or any other entity designated or authorized by the Commission to receive reports pursuant to the Rule:
 - (a) principal and interest payment delinquencies
 - (b) non-payment related defaults, if material
 - (c) unscheduled draws on debt service reserves reflecting financial difficulties
 - (d) unscheduled draws on credit enhancements reflecting financial difficulties
 - (e) substitution of credit or liquidity providers, or their failure to perform
 - (f) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701 TEB) or other material notices or determinations with respect to the tax status of the Bond, or other material events affecting the tax status of the Bond
 - (g) modifications to rights of Bondholders, if material
 - (h) Bond calls, if material and tender offers
 - (i) defeasances
 - (j) release, substitution, or sale of property securing repayment of the Bonds
 - (k) rating changes
 - (l) bankruptcy, insolvency, receivership or similar event of the School District

(m) the consummation of a merger, consolidation, or acquisition involving the School District or the sale of all or substantially all of the assets of the School District, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material

(n) appointment of a successor or additional trustee or the change of name of a trustee, if material

(o) incurrence of a financial obligation of the District, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the School District, any of which affect security holders, if material: and

(p) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the School District, any of which reflect financial difficulties.

The School District may from time to time choose to provide notice of the occurrence of certain other events, in addition to those listed above, if the School District determines that any such other event is material with respect to the Bonds; but the School District does not undertake to commit to provide any such notice of the occurrence of any material event except those events listed above.

The School District shall give notice in a timely manner to EMMA, or any other entity designated or authorized by the Commission to receive reports pursuant to the Rule, notice of its failure to provide the annual financial information and operating data and such audited financial statement as required pursuant to this Disclosure Certificate, if any, on or before the date specified.

The School District reserves the right to terminate its obligation to provide the afore described notices of material events, as set forth above, if and when the School District no longer remains an obligated person with respect to the Bonds within the meaning of the Rule. The School District acknowledges that its undertaking pursuant to the Rule described under this heading is intended to be for the benefit of the holders of the Bond (including holders of beneficial interests in the Bonds). The right of holders of the Bonds to enforce the provisions of the undertaking will be limited to a right to obtain specific enforcement of the School District's obligations under its material event notices undertaking and any failure by the School District to comply with the provisions of the undertaking will neither be a default with respect to the Bond nor entitle any holder of the Bonds to recover monetary damages.

The School District reserves the right to modify from time to time the specific types of information provided or the format of the presentation of such information, to the extent necessary or appropriate in the judgment of the School District; provided that the School District agrees that any such modification will be done in a manner consistent with the Rule.

A Continuing Disclosure Undertaking Certificate to this effect shall be provided to the purchaser at Closing.
